

# Factors That Have Resulted In Flock Reductions Due for Airing at Prineville Parley

Prineville, Jan. 16 (Special)—Preparations were reported complete today for the annual meeting of approximately 150 members of the Oregon Wool Growers association here tomorrow, Thursday and Friday. Reservations have exhausted all space at the hotel, and residents were asked to accommodate the visiting woolmen in private homes.

A thorough discussion of factors that have brought about a reduction of sheep numbers in eastern Oregon will feature the sessions, a half-day being devoted to the subject on Friday, according to Max Hoke, president, and Walter Holt, secretary, both of Pendleton.

Business meetings will be held in the Lyric theater Wednesday and Thursday, with the woolgrowers discussing cost production, transportation and war-time restrictions. These discussions will be led by E. L. Potter, head of the agriculture economics division of O.S.C. Speakers on this program also will include W. E. Williams of the Production Credit association; Wayne Stewart, Davville; Fred Phillips, Baker; J. H. Dobbin, Enterprise; R. L. Clarke, Portland, and John Carkin of the public utilities commission, Salem.

### To Discuss Legislation

Proposed new truck legislation will be discussed by Ned Sherlock, Lake county, and R. C. Burkhardt, Lebanon, representing the Western Oregon Livestock association. A. R. Bohoskey, Portland, and J. R. Beck of the O.S.C. extension service will speak on the labor situation.

James Coon of the Pacific Wool Growers cooperative will report on the new core sampling method of grading wool, and J. M. Jones, National Wool Growers association secretary, and E. E. Marsh, assistant secretary, both of Salt Lake, will speak on wool marketing, postwar problems and the association's program.

Committees will begin their work on Wednesday afternoon, with Ned Sherlock as chairman of the committee on marketing and legislation; Ira Staggs, Baker, chairman of wildlife and predatory animal committee, and J. G. Baratt, Heppner, as chairman of the general resolutions committee.

### Banquet Set

The annual banquet is scheduled for Thursday evening at 6:30 in the grade school auditorium, with Garnett Barrett of Heppner, acting as master of ceremonies. The banquet is sponsored by the Prineville Chamber of commerce with David Staley, grade school principal, chairman. Entertainment at the banquet will be steered by Dallas Norton, who promises some lively numbers. The girls' stringed orchestra will supply music, and the high school comedian trio — Paul Thalhofer, John Goodwin and Ward Sybouts — is billed for entertainment.

The annual ball will be in the school gymnasium following the banquet, and the public is invited to attend.

### Local Members Aid

Women's auxiliary activities are being planned by local members, headed by Mrs. Ernest Moore, Mrs. A. S. Boyd, state president

## Cadets Sponsor First Aid Work

The Civil Air Patrol cadets' first aid class under the instruction of John Mogan is still in progress and is now studying the treatment of shock, CAP leaders announce.

Cadets who have first aid cards attended a class in map reading with the senior group at headquarters, last night and were instructed by Glenn T. Rhoton of the U. S. forest service. After the class the cadets were brought to headquarters by Sgt. Allen, cadet training officer, and a training film, "Pilotage Navigation," was shown to the entire group.

Lloyd Thompson, a former cadet member, was sworn into the Civil Air Patrol by Lt. Larry Leremo, commanding officer, and Cadets Shirley Dunnigan, Don Hinshaw, and Wilfred Officer completed their basic training and received their identification cards. These members each were automatically promoted to the rank of private first class.

## State Fund Holds Over \$61,000,000

Salem, Ore., Jan. 16 (AP)—The state unemployment compensation commission has more than \$61,000,000 on hand as an unemployment reserve, it reported in its end-of-the-year bulletin today, as compared to \$16,000,000 at the end of 1941.

Benefits dropped to new lows during 1944, the bulletin said, while the reserve was accumulating at a rate almost as high as that of 1943, the record year. A gradual tightening of the labor market and a recession in reported employment was not expected to make the final figure on payrolls much below the record 1943 level, which was more than three times the pre-war average.

## Filipinos Are Told Yanks Very Busy

At the Luzon Front, Jan. 16 (AP)—Refugees revealed today that only three days before the Americans landed on Luzon the Japanese told the Filipinos no further American moves in the Philippines were possible because all available American troops were being rushed to Europe to halt the Nazi thrust in the Ardennes. This information, the refugees said, was given to the puppet president, Jose Laurel, and his cabinet, as late as Jan. 6, when the great Luzon task forces already were entering the waters off Luzon.

## Pangburn Opens Service Station

The Mobil service station, two blocks north of Pilot Butte inn at 1273 Wall street, today opened under new management, as a result of the recent purchase by Clark Pangburn of the establishment from A. C. Jeanguenat. Pangburn said that service at the station will be improved, with the place being open from 8 a. m. to 8 p. m. daily except Sundays. Pangburn formerly was with the O.K. Tire Welding service at the corner of Bond street and Franklin avenue.

## Edward Hall, Bend, Is Now Sergeant

Egt. Edward Hall, with Patton's Third army in France, was made a sergeant just about the time he finished sewing corporal's stripes on his shirts, his parents, Mr. and Mrs. F. G. Hall, have learned. The sergeant wrote, "... I had a 48-hour leave and spent it in Paris. Went on a conducted group tour of the city and slept in a real bed in a real hotel. Boy!"

## Dean Harry K. Newburn to Be Head of University of Oregon

Portland, Ore., Jan. 15 (AP)—Dean Harry K. Newburn, dean of the college of liberal arts of the University of Iowa, today was named president of the University of Oregon by the state board of higher education.

The formal election was scheduled for Tuesday but the members announced his choice after a Monday session.

Dr. Newburn will succeed the late Dr. Donald Erb, who died 13 months ago after being in office five years. Since Dr. Erb's death, Dr. Orlando John Hollis, professor and acting dean of the university law school, has been acting president.

Dr. Newburn, 39, earned his bachelor's degree at Western Teachers college, Macomb, Ill., in 1928 and took his graduate work at the University of Iowa, where he majored in education and psychology. He obtained his master's degree in 1931 and doctor of philosophy in 1933.

The new president began his professional career in the Illinois public schools, serving as teacher, athletic coach and Township high school principal, later becoming superintendent of schools. He joined the University of Iowa staff first as principal of the University high school in 1931, then became director of the school, assistant professor and later associate professor of education.

Dr. Newburn was advanced to associate dean of the college of liberal arts in July, 1941, and was made a full dean in September of the same year.

Dr. Willard Marks, president of the Oregon state board, said that leading educators had praised the manner in which Dr. Newburn reorganized the liberal arts curriculum of the University of Iowa and his varied work in the field of

education. The Carnegie foundation financed a field study under his direction and then sent him to England and Scotland in 1938 to study English secondary schools and teacher training programs.

He holds membership in numerous professional associations and organizations in his field, is in Phi Delta Kappa and Kappa Delta Pi honor societies. He is an author on numerous periodical articles and is an experienced public speaker.

The new president is married and has three children, Jacquelin, 14, Robert Lee, 12 and Michael, born last December.

His election will be effective July 1 of this year. Previous presidents and their length of service are: J. W. Johnson, 1876-1893; Dr. Charles H. Chapman, 1893-1899; Dr. Frank Strong, 1899-92; Dr. Prinee L. Campbell, 1902-1925; Dr. A. B. Hall, 1926-1932; Dr. C. V. Boyer, 1934-1938; Dr. Donald Erb, 1938-1943.

The hotel manager said about 80 guests were registered in the 70-room building. He estimated damage at \$80,000.

All eight of the injured were suffering from exposure, police said. The cause of the blaze was not determined.

Police said an examination of the bodies of 12 of the victims at the morgue showed that eight were burned to death and the other four died of suffocation. All of the bodies of victims were found in the upper stories of the building. Some of them were trapped in hallways by the rapidly spreading flames and others were found in their rooms.

The fire, which swept through the four upper stories of the structure, was discovered about midnight and spread so rapidly that three alarms were turned in within 17 minutes.

Firemen battled for two hours to bring the blaze under control. Thousands of persons, attracted by screaming fire sirens, watched as guests trapped in the upper stories leaped into nets or ran down fire escapes to safety.

Other occupants of the build-

ing were rescued by firemen who carried them down ladders, or escaped through the lobby of the building.

## Farm Machinery Schools Attract

So successful has been the farm machinery repair class being held in the Tumalo project shop that plans are being made for a third school in Tumalo, Borden F. Beck, supervisor, announced when in Bend yesterday. Each session of the schools, which started on January 2, lasts seven days, and the second school is now nearing its conclusion.

Primary purpose of the schools,

being held under the supervision of the war food production program, is to get farm machinery in condition for spring work. Claude Jackson is mechanical instructor at the Tumalo school, and at present the class is overhauling trucks, tractors and farm motors and some are making manure spreaders, to attach to tractors. Equipment and materials with which to do the work are being supplied.

New Schools Due In the Plainview community, a second school is to start tonight, under supervision of George Wakefield, of Sisters, Beck announced. Similar schools will be held in Terrebonne and

Powell Butte in the near future.

Attendance at the schools has provided capacity classes. Full information relative to the schools can be obtained from Beck, supervisor of vocation education in the Redmond union high school.

**BIG PLANT OPENED** Richmond, Calif., Jan. 16 (AP)—The Standard Oil company of California today put into operation a \$20,000,000 hundred-octane gasoline plant capable of producing enough fuel to power a sizeable force of B-29 Superfortresses for a daily round trip from San Francisco to Tokyo.

## Please think twice before you put this message out-of-mind

These are our wounded. They have fought and sacrificed for you and our country. Now, they are hurt, puzzled men—wondering what's next for them. We railroaders see them only too often these days on our hospital trains. Trains that slip silently to our inland hospitals.

These men haven't much to say—they just lie quietly in their berths, staring, silent. You know what they are thinking—it's written on every face. "What becomes of me now? What good am I, being handicapped as I am?"

There are hurts of mind, hurts of body, that must be healed quickly. These men must be brought back to health, happiness and usefulness. And there is no deeper personal satisfaction than the inner feeling you have in helping a wounded soldier to walk again, to talk again, to see and hear again—yes, to live again. This is the great reward of being a Medical WAC.

With the war steadily mounting in fury, 50,000 war casualties are now returning each month from the battle zones. The Medical Department urgently needs more WACs to care for these wounded. If you are a woman between the ages of 20 and 50 and have no children under 14, or other dependents, the Medical WACs offer you valuable training in a profession of high purpose.

One of these positions is open to you right now as an Army Medical WAC: Pharmacist, Pharmacist Aide, Psychiatric Social Worker, Dental Technician, Dental Hygienist, Dental Laboratory Technician, Laboratory Technician, Occupational Therapist or Assistant, Medical Stenographer, Medical Technician, Educational Reconditioner, Optometrist, X-Ray Technician.

If you are unable to meet the general requirements of one of these positions, you can be sent to one of five schools for special technical training: (1) X-Ray Technician School, (2) Surgical Technician School, (3) Medical Technician School, (4) Medical Laboratory Technician School, (5) Dental Technician School. Qualification for these schools is a high school diploma.

Please consult the nearest U.S. Army WAC Recruiting station or write WAC Recruiting Office, Fort Douglas, Utah, for specific and detailed information about your individual case. Only, do it now, the need is now.

**NEW kind of ASPIRIN tablet doesn't upset stomach**

When you need quick relief from pain, do you hesitate to take aspirin because it leaves you with an upset stomach? If so, this new medical discovery, SUPERIN, is "just what the doctor ordered" for you.

Superin is aspirin plus—contains the same pure, safe aspirin you have long known—but developed by doctors in a special way for those upset by aspirin in its ordinary form.

This new kind of aspirin tablet dissolves more quickly, lets the aspirin get right at the job of relieving pain, reduces the acidity of ordinary aspirin, and does not irritate or upset stomach—even after repeat doses.

Tear this out to remind you to get Superin today, so you can have it on hand when headaches, colds, etc., strike. See how quickly it relieves pain—how fine you feel after taking. At your drug-gist's, 15¢ and 39¢.

**Superin TABLETS**
