AMERICAN HEROES

by JULIAN OLLENDORFF

His company surprised by Japs in the early morning, Tech. Sgt. Henry G. Bohlen of Kansas leaped from his foxhole, killed six and wounded several more. That done he helped his buddies bring about the surrender of 125 and kill or wound another 45. Bravery won Bohlen a silver star. That kind of action will speed victory when supported by War Bond sales.

Giant Airships May Link U. S. And Australia

Akron, O. (AP)—Airship service, using giant dirigible of the luxury-liner class, may be instituted after the war between the United States and Australia, reports here indicated.

Such service was the subject of recent conversations between officials of the Goodyear Aircraft Corp., potential builders of the dirigibles, and two members of a leading Australian banking concern.

The airships, numbering at least two and possibly four, would be of 10,000,000-cubic foot capacity with helium gas, on which this country holds a world monopoly.

There would be two types of ships—one a cabin-ship job complete to private staterooms and baths for 100 passengers, the other with accommodations for 200 to 300 tourist class passengers in chairs.

No detailed designs of the proposed giant dirigibles has been made yet, but they are proposed for a load of 92½ tons and with a useful lift of 305,000 pounds. They would cruise at a range of 2,500 miles, approximately the distance between San Francisco and Honolulu.

A Goodyear Aircraft spokesman said, "We have given them (the Australian bankers) the potentialities of the airship and have told them what it can do; but we are not and cannot be the operators."

All facilities of the local plant at present are engaged in building fighter airplanes and airplane parts and will continue to do so for the duration, he said.

Airport construction materials in Mexico are now on a high priority rating because more landing fields are necessary for the increased airplane service.

Japs Note Loss Of 2 Admirals

Tokyo, Jan. 18 (AP)—The deaths of Vice Admiral Sadimich Kajitoka and Rear Admiral Minegoro Kamemayama have been announced by the Hokusuka naval station, the Domei news agency said today in a transmission recorded by the FCC.

The dispatch gave no details. Their deaths brought to 82 the number of Japanese admirals reported to have died on active duty since May, 1944.

PROFESSOR HELPS OUT

Amherst, Mass. (AP)—Prof. W. H. Tague of Massachusetts state college decided recently to do something about the hundreds of sewing machines which housewives couldn't get repaired because of the shortage of repairmen. So he set up an all-day sewing machine clinic at Town hall. The women brought their machines to the hall where they repaired them themselves under Prof. Tague's watchful eye.

OWN FOREST FOR STUDENTS

South Hadley, Mass. (AP)—South Hadley soon will be one of the few school systems in the Berkshire shires to own its own forest. The department plans to purchase a 35-acre forest where the students can learn practical woodcraft.
