

Stocks Decline In Active Day

By Elmer C. Walzer
(United Press Financial Editor)

New York, Jan. 19 (UP)—Stocks declined in all departments today on moderately active trading.

The decline ranged to 3 points in Pere Marquette preferred. Railroad shares generally were the hardest hit. They recovered moderately in part by the highly favorable war news which has caused some traders to revise their estimates on the duration of the war.

Announcement of a civil complaint against 16 steel manufacturers filed by Attorney General Biddle was ignored marketwise. General Electric, indicated yesterday for alleged cartel practices, held a small gain in contrast with most other stocks.

Captain Watson Wins Citation

Mrs. Frank E. Watson, Jr., whose husband, Capt. Watson was recently awarded the bronze star by Lt. Gen. Walter Krueger, commander of the Sixth army, for meritorious operations against the Japanese in Leyte harbor on Oct. 25, arrived in Bend yesterday with her daughter, Donna Jean, to visit friends here. They are guests of Mr. and Mrs. Roy Polard, 362 East Clay street.

Capt. Watson, former army inspector for CCC camps in this area, left Bend in 1941 for active duty with the army. Mrs. Watson has since lived in Redding.

Wins Citation

His citation read, in part: "When an LST (landing ship tank) approaching shore was bombed by enemy planes and many casualties and considerable damage resulted, Captain Watson quickly organized work parties and participated actively himself in clearing the ship."

"By his personal example in removing bodies in the face of repeated attack, he encouraged the

troops to expedite unloading. By his unflinching spirit and perseverance he prevented chaotic confusion and made possible the saving of much valuable equipment."

Present production capacity of high-octane aviation fuel is over 500,000 barrels a day; in post-war days aviation will probably use this supply, but automobile fuel will be several octane numbers higher than pre-war levels.
