

Ruling By Court Affects Stocks

By Elmer C. Walzer
(United Press Financial Editor)

New York, Jan. 29 (AP)—A supreme court decision that the utility common stocks may participate in assets of liquidations under the holding company act today touched off heavy dealings in a long list of utilities on the big board and curb and had a steady influence on these markets.

The utility average showed a small net gain on contrast with the other major groups. On the curb low-priced utilities appeared on blocks ranging to 17,000 shares in Niagara Hudson power. The supreme court decision was handed down in the case of United Light and Power Co. Stocks of that company, including the preferred move up on heavy dealings.

In the other sections of the market trading was featured by selective buying in the nocking issues, some building stocks, a few of the oil low-priced motors, and a few rails. A number of special stocks rose a point or more. A sizable group made new highs.

Chilling Weather Grips Midstate

Bend today was experiencing some of its chilliest daylight weather of the winter, with the mercury resting at 22 degrees at noon. Last night's minimum was 18 degrees. At daylight Sunday morning the temperature was seven above zero.

Bend skaters have located some ice-covered ponds, they reported today. Yesterday, about 50 skaters visited the Mayfield pond, near the Hooch school, east of Bend.

Skating on the Tumalo reservoir is not so good, because of a broken ice surface, winter sports enthusiasts reported.
