

Railroad Shares Take Leadership

By Elmer C. Walzer
(United Press Financial Editor)

New York, Feb. 2 (UP)—Railroad shares assumed leadership of the stock market today with gains ranging to 5 points while radio corporation furnished the future volume for an individual issue and made new high, and the utility average reached a new high since August 25, 1937.

War and peace stocks vied for leadership. Ralls, considered the top-ranking war group, were active as a group. Allegheny crop, common featured in turnover. Norfolk & Western at its high was up 6 points. Gains of a point to 2 points were noted in Union Pacific, Texas & Pacific, Santa Fe, Nickel Plate preferred, Delaware & Hudson, Colorado & Southern issues and Chicago & Northwest-rails preferred. Demand for the rails hinged on belief the roads will prosper in peace as well as in war time since peace will bring sharply lower taxes for them.

American & Foreign power issues were weak for a time but they recovered half of losses that ranged to 4 points in the 77 preferred. An Argentine commission recommended expropriation of some of the company's subsidiaries.
