Stocks Advance; Session Is Short

By Elmer C, Walzer (United Press Financial Editor) New York, Feb. 3 (IP)—Stocks advanced irregularly in moderately active trading in the short session today.

Buying concentrated on a few individual issues in the leading groups. The main list moved narrowly with advances in the major. ity. The usual Saturday evening-up operations brought a few de-clines, and a few traders were ad-

clines, and a few traders were adjusting their margin accounts to conform with new federal reserve margin regulations announced today and effective Monday.

Aviation Corporation featured in turnover and held at the previous close. A block of 10,000 shares of Packard sold at 6¼, the previous close. The issue later rose to 6¼. American Locomotive and General Railway Signal made new highs on gains of more and General Raffway Signal made new highs on gains of more than a point in the rail equipments. Certain Teed preferred rose 3 points to a new high at 143 in the building department. Free Cigarets?
Trap Suspected

Johnstown, Pa., Feb. 3 (IP)—
Passersby stared open-mouthed at a parking meter in front of a downtown bank, shaking their heads incredulously.

A pack of popular brand cigarets was fastened to the meter with a sign: "Free—take one."

It must have looked like a booby trap, because no one was seen accepting the offer.
