

Industrials Aid Eastern Market

By Elmer C. Walzer
(United Press Financial Editor)

New York, Feb. 10 (AP)—A rise in industrial stocks today offset minor declines in rails and utilities and left the stock market unchanged in a dull short session.

Neglecting the leading stocks, traders concentrated on the special issues which had gains ranging to more than a point in several instances. Standard Oil of Ohio spurted 4 points to a new high at 56 1/2 on news the stockholders soon will vote on a plan to split the issue 2 1/2 for 1.

Steel, motor, copper, gold, chemical, and aircraft issues firmed. Oils balanced off small gains and losses except for Ohio Standard. Mercantiles were steady to firm with May Department Stores at a new high.

New highs were made by Allis Chalmers, American Metal Company, Ltd., Celanese, Columbia Pictures, Consolidated Natural Gas, Flintkote, Foster-Wheeler, Furehuf Trailer, National Dairy, Liquid Carbonic, U. S. Rubber preferred, and Schenley. Gains in this group ranged to three points in rubber preferred.

BOSTON WOOL
Boston, Feb. 10 (AP)—Both domestic and foreign wools moved slowly this week in the local wool market, the war food administration reported today in its weekly wool review.

It was explained that buyers throughout the season had been closely following appraisals and purchasing those lots on which they felt the appraisal price was in their favor, and had left in the market only those lots which in their opinion were over-appraised.

Foreign wools were slow because of the lack of offerings of lots on which the specific delivery date could be given. Some trading was noted in Montevideo spot lambs wool.

The war production board announced the need of 73,000,000 yards of rate wool fabrics for the rehabilitation program, the deliveries to be made as soon as possible.

Polio Aid Dance Set for Tonight

A polio aid dance featured by a floor show and the cutting of a huge cake will be held tonight in the Bend Roller rink, with all proceeds to go into the county infantile paralysis fund. The big cake will be cut by Mrs. C. G. Reiter, and B. A. Stover will preside as master of ceremonies. Guests of honor will be officials from the Portland air base and the Redmond field.

In Redmond collections of funds for the battle against polio was reaching the \$400 mark. It was reported today by Arthur H. Tiff, drive chairman there.

Amounts credited to the Eastern Star and Tualuma granges in a recent article today were reported to have been erroneously stated. It developed today that a total of \$111.16 had been turned in by the Eastern Star grange, and the Tualuma grange had aided the fund by \$133.

Strong long claws on the forefeet of the pocket gopher, and strong jaws with four broad sharp teeth, enable him to tunnel rapidly under ground and also make him a formidable fighter.

Machine Gunner Picks Off Japs Storming Tank

With the 24th Infantry Division in the Philippines (AP)—The buddies of Pfc. James A. Reed call him "the best damn machine gunner in the Pacific."

This is the reason: In the Leyte campaign of this famed Victory division the Japanese were hitting our lines one day with everything they had,

Shampoo Time in Luzon Concentration Camp

Using an old-fashioned bathtub supported by a rough wooden frame with a crude shower attachment overhead, two women internees at the Santo Tomas University concentration camp in Manila are shown washing clothes in a metal trough. This photograph was taken by a Japanese soldier, was found in an enemy barracks on Leyte.

when down the road came lumbering an amphibious tank to evacuate the wounded from an advanced position.

Some Japanese jumped out of the ditch and threw a land mine under the tank's treads, disabling it. Then they started to storm the stalled vehicle.

The tank's guns picked off some of the Japanese, but there were blind spots, particularly close to the vehicle, into which it could not fire. Crawling Nipponese began to get dangerously close.

Reed, watching the action from his position, saw what was happening. He picked up his heavy machine gun, tripod and all, and raced down the road as far as he could toward the tank. Then he slid the gun into position right in the middle of the road and began picking off Japanese four and five feet from the tank's sides.

Not once did his bullets hit the tank, but he kept the Japanese at bay until another amphibian could rescue the marooned crew. Then, apparently realizing his exposed position for the first time, he picked up the gun and sauntered back across the rice paddy to his unit.

"Get down," they yelled. "Aw, to hell with the Japs," said Reed.

Reed is the son of Mrs. Millicent Reed of 319 Main street, Islip, L. I., New York.

Veteran of Leyte Visitor in Bend

Wearing the newly-created red ribbon with blue and white stripes given liberators of the Philippines, Sgt. Harold B. Smead is home after 30 months on Pacific islands where he was in charge of a gun crew of an anti-aircraft battery.

The sergeant, who attended Bend high school, enlisted in May, 1942, and shortly thereafter was sent to the New Guinea combat zone. He later participated in the Leyte campaign where his battery downed several Jap bombers and fighters.

While on Leyte the sergeant's outfit also encountered a typhoon of 12 or 14 hours duration which ripped off roofs, flattened tents and otherwise temporarily disrupted camp life. Fortunately, enemy planes do not fly during typhoons, the sergeant said.

Shortly before he boarded a transport for the long voyage home, Sgt. Smead, standing in line saw a familiar pair of shoulders ahead of him. He slapped them soundly and Cpl. John S. Crawford of Bend turned around. Crawford, it developed, was due to accompany him to a west coast port.

Another Bend friend he met was Cpl. Rex Edmondson. Cpl. Edmondson, attached to a forestry bat-
