

Stocks Advance To New Highs

By Elmer C. Walzer
(United Press Financial Editor)

New York, March 6 (UP)—Stocks advanced today to new highs since 1937 on sharply increased trading.

The advance developed shortly before noon after an early decline had turned the list irregularly lower.

Inability of a sharp drop and active turnover in Allegheny Corporation issues to depress prices generally allayed fears of market operators and brought in new buying.

The break in Allegheny Corporation stocks and in issues of Nickel Plate and Pere Marquette followed an ICC announcement that Allegheny should be divested of control of its subsidiary companies on the theory it got this control in violation of ICC regulations.

Canal Protection Sought in Bill

Establishment of slaughterhouses, turkey pens or other such institutions likely to create unsanitary conditions adjacent to Central Oregon canals, is banned in legislation passed late yesterday by the Oregon State senate, according to a report received today from Salem.

The measure is House Bill 224, and its violation would result in fines not less than \$50 or more than \$500.

The bill covers all irrigation canals fed by the Deschutes river, south of the confluence of that stream with Crooked river. The senate passed the measure unanimously.

Bend Lions Hear Distillery Talk

In the interest of the war effort, distilleries have operated on a 24 hour basis for the past two years, producing industrial alcohols used in the manufacture of tires, ammunition and plastics. V. A. Meagher, representative of a distillery, told members of the Bend Lions club at their luncheon meeting today noon in the Pine Tavern. He added that the federal liquor tax for one year is \$1,400,000,000. Methods used in manufacturing were discussed.

It was announced at the meeting that the Bend Lions club leads the entire 17th district in membership gains and attendance.

Vessel Wrecked By Explosion

Vancouver, B. C., March 6 (BUP)—The wrecked 10,000-ton freighter, Greenhill Park, turned into a blazing coffin for an unofficially estimated six or seven men by ammunition explosions, was being towed to sea today, reportedly to be sunk.

The Parks steamship vessel normally carried a crew of 52 and 25 to 30 of them were believed to have been aboard at the time of the blast. However, a preliminary check indicated that all but six or seven of them managed to escape, but some of the survivors were seriously injured.

Health Schedule For Week Given

The Deschutes county department of public health has released the following weekly schedule to be met by those who have registered appointments:

Wednesday, 1-4 p.m.—Child health conference in Bend at the health department offices in the courthouse.

Thursday, 10 a.m.-3 p.m.—Immunization clinic at Prineville grade school.

Friday, 1 p.m.—Regular immunization clinic in Bend at the health department offices.

Alaskan Colony Seeking Airport

Matanuska, Alaska, March 6 (UP)—After producing its first surplus garden truck crop in the ten years of its existence, the Matanuska farm colony today prepared to build a \$300,000 airport so it can ship garden, dairy and meat products to remote parts of Alaska.

Approval of the airport project was given here yesterday at a conference attended by Col. Otto F. Ohlson, general manager of the Alaska railroad, and Marshall C. Hopkin, Tacoma Park, Md., regional director of the civil aeronautics authority.

The airport site, now being examined by CAA engineers, will be constructed by farmers themselves, with the expectancy of government aid. The field will be large enough to accommodate all freight and aircraft, officials of the Farmers' cooperative said.

Pay Off Debt

Don Irwin, Basin, Wyo., manager of the ARRC, pointed out that 15 of the 200 families making up the colony have paid their debt to the government in the past three years and now hold title to their lands. He estimated at this rate, all the families could own their lands within five years.

The pioneers came to the fertile valley in 1935 under auspices of the federal government.

The average Matanuska tract contains 80 acres, currently appraised at \$7,000. Last year, the farmers paid \$75,000 to the government on their indebtedness.

Two CAP Officers Visit Bend Group

Capt. Clarence Graham, commanding officer, CAP group 2, of the state of Washington, and Lt. Burton Belknap, adjutant and photographic officer, were guests of the local civil air patrol squadron at last night's meeting. The two officers made the flight from Spokane, Wash., and landed on the Bend airport yesterday evening.

The officers explained to the group that the general public had quite often confronted them with the question, "Just what do you fellows do in this CAP?" So, after six months of hard work and conferences with army and air corps officers, Lt. Belknap, with the aid of Spokane squadron talent, had completely filmed, directed and produced a technicolor film, "Flying Minute Men of the CAP", which outlines CAP work in all phases.

The film was shown to the Bend squadron at last night's meeting immediately following the cadet first aid class.

GETS FINGERPRINTS BACK

Hagerstown, Ind. (UP)—Wilfred Knapp was happy when he heard he could have his fingerprints back. Judge Gustave H. Hoelscher ruled that Knapp's request be granted. After Knapp was proven innocent of a grand larceny charge, he asked for his fingerprints, since he was not a law violator and didn't want them on file.

Oregon Sea Lion Bill Is Withheld

Salem, Ore., March 6 (UP)—There will be no indiscriminate killing of sea lions on the Oregon coast under an agreement worked out today between the Oregon fish commission and sponsors of a sea lion bill in the house of representatives.

The commission approved issuance of permits for shooting of sea lions in a limited area at the mouth of the Rogue river, where sea lions are reported to swim in and kill salmon.

In return for this action, Rep. W. W. Balderee and Rep. Fred W. Adams said no further action would be taken on their bill (HB 36) which would have opened up all the coast, except Lane county, to killing of sea lions.

The U. S. Fish and Wildlife service objected to the bill and Dr. Ira Gabrielson, head of the agency, told the commission he would send a scientist to Oregon in April to study the habits of sea lions and determine if they are predatory on salmon. Dr. Gabrielson said he believed salmon were only a meager part of the sea lion diet.

Oregon Sea Lion Bill Is Withheld

The commission approved issuance of permits for shooting of sea lions in a limited area at the mouth of the Rogue river, where sea lions are reported to swim in and kill salmon.

In return for this action, Rep. W. W. Balderee and Rep. Fred W. Adams said no further action would be taken on their bill (HB 36) which would have opened up all the coast, except Lane county, to killing of sea lions.
