

## 4-H Club Week to Help Bring High Wartime Records

In observing National 4-H Club week March 3-11, Oregon is helping build the club program in this country in 1945 to what is expected to be the largest enrollment in history, reports H. C. Seymour, state club leader in the O. S. C. Extension service. Last year's total of 1,700,000 4-H club members is expected to be increased to more than two million this year.

In Oregon, where the proportion of club members to the total number of boys and girls of club age has consistently led the nation, special observances were arranged in each county, with recognition and encouragement of club work given at meetings of granges, Farmers Unions, Farm Bureaus, parent-teachers' groups, service clubs, and local churches. Every club leader is receiving a copy of messages issued by President Roosevelt and Governor Earl Snell in support of the work.

"Your efforts must be carried forward with even more momentum in 1945," wrote President Roosevelt. "To this end may National 4-H Club week result in a reeducation by all 4-H club members of their heads, hearts, hands, and health to full-hearted endeavor in all that makes for victory."

**Snell Has Message**  
Governor Snell in his message to club members said: "All during the war Oregon has had every reason to be proud of these boys and girls, as they have every right to be proud of themselves. The increasing food emergency only serves to increase appreciation at home and in the armed forces."

Oregon had an increase in enrollment of club members in 1944 with expanded projects in food production and conservation. Every member who produced enough "food to feed a fighter" will receive a special certificate of appreciation from the army quartermaster corps. Expanded work in such projects is the aim of all leaders in 1945.

## Gas Cut Due in Volunteer Work

Tighter restrictions governing issuance of supplemental gasoline rations to volunteer workers have been announced by the OPA in view of the limited gasoline supply and the fact that previous provisions were so broad that many issuances could not be justified, E. W. Eggen, OPA mileage rationing representative, said today.

"Formerly any uncompensated volunteer regularly performing a job contributing to the public welfare was eligible for supplemental gasoline rations," Eggen explained. "Now the volunteers must be in certain specific categories of work before the local boards can issue gasoline."

### Categories Listed

Volunteer workers deemed eligible under the new ruling, effective March 9, must be in one of the following categories:

1. Certain types of activities for social service agencies.
2. Work regularly performed under direction of government units which contribute to the war effort or the general welfare.
3. Work regularly performed under the direction of a government agency or non-profit organization which either contributes to the general welfare by aiding present or discharged members of the armed forces, or their families, or the families of deceased members, or contributes directly to the war effort.
4. Work by a minister who is regularly serving a congregation in meeting the religious needs of the locality that he regularly serves.
5. Work regularly performed by representatives of government, management, or labor in

recruiting or training industrial workers or in maintaining peaceful labor relations.

## President Back From Hyde Park

Washington, March 8 (AP)—President Roosevelt met his congressional advisers today shortly after returning to the White House from a visit to his Hyde Park, N. Y., estate.

Revising its policy on reporting movements of the president, the White House permitted disclosure of the fact that he had spent the week-end at Hyde Park.

It said he spent the time there resting and working on a large accumulation of routine paperwork which piled up during his trip to the Crimea.

**Rules Relaxed**  
Jonathan Daniels, acting White House press secretary, explained the decision to permit after-the-fact disclosure of Roosevelt's travels to Hyde Park. He said it was done because "we felt that where security was not involved, security should not be invoked."

Asked why the White House now felt that security did not apply to Roosevelt's movements to Hyde Park and back, he said:

"As we go along through a war we come to a point where experience has shown that without endangering the president there can be some relaxation of the rules which seemed essential before we had that experience."
