

Rhine Crossing Weakens Market

By Elmer C. Walzer
(United Press Financial Editor)

New York, March 8 (UP)—Stocks broke 1 to 4 points today when announcement was made of the American First army's crossing of the Rhine into the heart of Germany.

Trading increased to such volume that the tickers ran four minutes behind. This was the latest the tape has been since mid-May, 1940.

The favorable war news caught the stock market off balance and it crumpled easily.

Before the announcement, the market had been under the influence of fears of further margin restrictions. Marriner S. Eccles, chairman of the federal reserve board, had told the senate finance committee that the board was studying margins and indicated they might be eliminated.

Market operators also were worried over threats to put through a new excess profits tax against speculative profits.

But the main selling developed on the war news. It conjured up the difficulties of reconversion that have so often in the past chilled market sentiment.

Book on Chipmunks in Oregon Written at OSC

Oregon State College The western chipmunk and the marmoset squirrel are the "heroes" of a new scientific monograph written here by Dr. Kenneth L. Gordon, acting head of the zoology department, who has spent many vacation periods studying the behavior of these popular little Oregon squirrels.

The 100-page volume, published and for sale through the college publications office, not only reports on the ordinary behavior of these little animals but tells about how they solved mechanical devices placed between them and food supplies. Stripes on the true chipmunk extend to the face, while those on the ground squirrel stop at the neck.

DOG SAVES FARMER'S LIFE Bluffton, Ind. (UP)—Henry Keller will be ever grateful to his shepherd-collie dog, Yank, who saved Keller's life by preventing a cow from trampling the man to death. The cow turned on Keller when he tried to push it into the barn, knocked him down, and started to walk on him. Yank attacked the cow, which in turn chased the dog, but didn't get him. Keller got back to his farmhouse safely.

From where I sit... by Joe Marsh

Definition of a Great Man

At Bill Webster's the other evening, we were kidding Bill about his children always saying that their pop's "a great man."

"Well, the kids are right," chuckles Bill. "Everybody in America's a great man. You just can't be part of greatness and not share in it."

In America (argues Bill) things that used to belong only to the great are common property: a share in government through the right to vote individual liberties guaranteed by constitution; freedom to speak one's mind; to work at what one pleases; to choose what one likes to eat or drink... whether beer or buttermilk.

But from where I sit, there's one important point to add... to make Bill's definition ring true. We must be worthy of this greatness. We must have the humility to appreciate these blessings... never abuse them with intolerance, intemperance, or indifference.
