

# Stocks in Rally But Volume Cut

**By Elmer C. Walzer**  
(United Press Financial Editor)

New York, March 12 (U.P.)—Stocks rallied again today for the second consecutive session but volume was cut sharply from the recent pace.

Gains ranging to more than a point were spread over a broad list with the leaders participating. Activity again centered on International Telephone whose issues made new highs. The steels, rails, oils, and mercantiles provided strong spots. Motors were narrowly mixed, sugars strong, and copper firm.

The market rose in the morning and wavered at mid-session only to resume its rise before closing. The improvement was ascribed to technical factors with market operators still moving very cautiously.

# Huge U. S. Tanks Go Into Action

Detroit, March 12 (U.P.)—Approximately 250 T-26 General Pershing tanks—America's mightiest and newest armored vehicles—went into action on the western front last month, it was disclosed here today.

In a letter to President C. E. Wilson of the General Motors Corp., whose Fisher Body division is producing the 45-ton tank, Maj. Gen. L. H. Campbell said the heretofore secret weapon "has proved itself extremely efficient" in combating the Nazi Tiger tank.

Campbell, chief of army ordnance, said American tank forces recently indicated dissatisfaction with other U. S. tanks "are enthusiastic about all the features of the new weapon." He added that they need the "maximum number in the least possible time."

# Oregon Money Bills Approved

**By Eric W. Allen, Jr.**  
(United Press Staff Correspondent)

Salem, Ore., March 12 (U.P.)—Appropriation bills totaling more than \$11,872,000 passed the Oregon house of representatives and went to the senate today. There was virtually no discussion or dissent on the measures.

The house also passed two more in a series of alcoholic control bills and three important school and taxation measures, while the senate gave final passage to a pair of insurance taxation bills after voting down minority amendments on one which opponents claimed were designed to permit mutual benefit companies to operate in Oregon—an issue blocked earlier in the session.

The appropriation bills, 13 in number, provide for payment of state government operation during the next two years. They include money for legislative expenses, state department operating expenses, institution buildings and operating expenses, parole and probation boards and claims against the state.

**Appropriation Approved**

Largest single appropriation was one for \$9,248,34, for penal institutions, deaf and blind schools and the parole staff. (HB 432).

The school bills (HB's 259, 260 and 261) grant an additional \$3,000,000 to schools out of excess funds from income and corporate excise taxes. The amount is not a direct switch of the funds, but places them at the disposal of the schools after the \$5,000,000 post-war "cushion," and if any surplus over this amount fails to accumulate in Oregon.

Claims for unemployment benefits increased only slightly over January during the month of February, the state unemployment compensation commission reported today, in spite of widespread shipyard layoffs.
