

Two Money Bills Up for Action In Statehouse

By Eric W. Allen, Jr. (United Press Staff Correspondent) Salem, Ore., March 13 (AP)—Two appropriation bills totaling \$515,000 and a bill providing for city and county planning commissions were due for final action in the Oregon house of representatives today, while little major legislation was scheduled in the senate.

Attention centered on two tax proposals which will go on the measure, a two-cent cigarette tax and a five-mill levy on property, were reported out of the joint senate assessment and taxation and ways and means committees with "do pass" recommendations. The point committees also approved the bill authorizing the election, but with the stipulation that only the two measures be considered.

School Bill Approved Still another bill approved provided for \$8,000,000 for school support, instead of \$5,000,000 for two years.

The two tax measures are for schools and for the state system of higher education building program.

The house yesterday passed 46 to 11 senate joint memorial 2, which petitions congress to establish a system of military training for young men.

The senate passed a bill (SB325) changing the manner of electing state legislators in Multnomah county to a position basis, under which candidates would file for a position instead of the present system of choosing the five high men for senator and 13 for representative.

Voters Confused Advocates said the present scramble among scores of candidates confused the voters and gave pressure groups a chance to get a single candidate into the top positions. These opposed were both, Burke, Ellis, Hilton, Jones, Pearson, Stayer and Winslow.

The whole subject of reapportionment and legislation districting would be taken up an interim committee under a resolution (SJR22) given "do pass" approval by the senate resolutions committee.

The senate gave final passage to a house joint resolution (8) memorializing congress to pass the Tydings bill amending the constitution to require the government to operate under a balanced budget except in war years or periods of emergency.

Label Is Proposed To Warn Drinkers Of Bottle Danger

Boston, March 13 (AP)—A special legislative commission studying drunkenness problems in Massachusetts has proposed that the following label be pasted on each bottle of liquor:

"Directions for use: use moderately and not on successive days. Eat well while drinking and, if necessary, supplement food by vitamin tablets while drinking. Warning: if this beverage is indulged in consistently and immoderately it may cause intoxication (drunkenness), later neuritis and paralysis (neuritis), and serious mental derangement, such as delirium tremens and other curable and incurable mental diseases, as well as kidney and liver damage."

FDR FAVORS BASEBALL Washington, March 13 (AP)—President Roosevelt told a news conference today that he was all in favor of continuing professional baseball during the war.

FDR Proposes 9 New Generals

Washington, March 13 (AP)—President Roosevelt today proposed the creation of nine new generals to give the army its greatest galaxy of four-star officers on active duty in U. S. history.

He nominated nine lieutenant generals to the temporary rank of general. At present there are only two generals on active duty and four five-star "generals of the army."

Those nominated for promotion to four-star rank were: Joseph T. McNarney, deputy supreme allied commander in the Mediterranean theater.

Omar N. Bradley, commanding general of the 12th army group in Europe.

Carl Spaatz, commanding general of the U. S. strategic airforce in Europe.

George C. Kenney, commanding general of the Far East airforces.

Mark W. Clark, commanding general of the 15th army group in Italy.

Walter Krueger, commanding the Sixth army in the Philippines. Brehon Somervell, commanding the army service forces. Jacob L. Devers, commanding the Sixth army group in Europe. Thomas T. Handy, deputy chief of staff to Gen. George C. Marshall.

Four-star generals now on active duty are Mallin Craig, who was recalled from retirement to head the war department's personnel board, and Joseph W. Stilwell, chief of the army ground forces.

The five-star generals are Marshall, Dwight D. Eisenhower, Douglas MacArthur, and Henry H. Arnold. They were four-star generals when congress created the new super-rank of "general of the army."

Anxious Wife Is Innocent Cause of Jailing Husband

If Mrs. Josh Petrie hadn't been overly anxious about her husband's whereabouts, he probably wouldn't be occupying a cell in the Bend city jail today on a charge of drunk driving.

But because Mrs. Petrie late last night called officers and asked that they start a search for her tardy husband, George E. Petrie, 38, a railroad worker of Hixon Junction, near Camp Abbot was being held on the charge.

Obliging Bend officers called State Officer Kenneth Roach and asked him to travel south on the highway and see if Petrie had been involved in an accident.

An hour later Officer Roach returned with Petrie, whom he said he had arrested near Lava butte.

"Your husband will not be home tonight," officers told Mrs. Petrie.

Basketball Lost In Mirror Pond

Approximately 20 young boys whose rendezvous is the Harmon playfield, were saddened today as their efforts to locate a basketball in the currents of the Deschutes river were in vain.

The ball, loaned to them for use at the playfield by the high school, was lost late yesterday

when it struck one of the boy's knees and bounded into the stream. Frantic efforts were made to recover it then, but these also failed. And a search at the power dam failed to produce the ball.

A group of the boys was out shortly after dawn today, but returned to their homes without the ball.

Any persons finding the ball is asked by the boys to either return it to the playfield or the high school.

Custer would have cheered it

It's the kind of high-riding, hard-hitting raider an old-line cavalryman would love—the fleet Mustang, a great airplane that flies first on Chevron Aviation Gasoline. Rared the fastest aircraft behind a propeller, every P-51 that rolls off North American Aviation's west coast assembly lines is test-flown, delivered on Chevron Aviation Gasoline. And take it from men who fly on Chevron Aviation Gasoline—they say: "After the war we're counting on you to give us a Chevron gasoline for the highway that will put skyway performance in our cars." And we will!
