

# India Missionary To Speak in Bend

Rev. C. Herbert Rice, LL.D., a Presbyterian missionary at home on a tour through India, will speak in the First Presbyterian church here on Tuesday, March 20, at 8 o'clock.

Dr. Rice is the principal of Forman Christian college at Lahore, India. He first went to India in 1906 as a short-term worker at Forman Christian college, but was appointed to regular missionary service in 1910. At Forman Dr. Rice developed the first psychological laboratory to be established in northern India, finding it necessary as part of his work to arrange in Hindustani the Binet point test of mentality, as all such studies were lacking in the language. He was invited to teach at the Punjab government university and became vice-principal of Forman Christian college. In 1920 he was elected principal of the newly reorganized Allahabad Christian college and was transferred to that city. There he served until 1942 when he was recalled to Lahore to take the principalship of Lahore's Forman Christian college.

Dr. Rice is an Iowan by birth, was graduated from Wooster college, Ohio, and Auburn Theological seminary. He has also done graduate study at Columbia and the Graduate School at Princeton. His wife is a sister of Dr. Arthur Compton, winner of the Nobel prize in physics, who was associated with Dr. Rice in the Punjab university when spending a sabbatical year as lecturer in physics at Lahore, and when making one of his earliest expeditions to the glacial lakes of Kashmir in connection with cosmic ray research.

Other speakers on the team will include two India natives, Khazan Singh and Miss Soule.

# Airplane Shares Go Up on Mart

By Elmer C. Walzer (United Press Financial Editor)

New York, March 16 (AP) — A spurt of 1 1/2 to more than 2 points in airline issues and a new high since August 17, 1937 in rails forced a firm stock market today.

Airlines were sought on reports that many will be given permission to operate in South America. United Air Lines made a new high on a rise of more than 2 points on its earnings statement showing record net profit. American at its high was up more than a point. Eastern and transcontinental made new highs and Pan American equaled its high.

New highs were noted in Santa Fe, Atlantic Coast Line and Texas & Pacific. Pere Marquette issues rose as much as 4 points in the preferred and others of the Allegheny group strengthened on belief the I.C.C. would not order elimination of control of the roads by Allegheny.

Steels and motors were higher. Oils had gains ranging to a point on recently published reports showing substantial gains in net profits.

# Santiam Snow Now 81 Inches

Reported just short of seven feet deep, the snow on the Santiam divide today had reached the greatest depth in recent years, according to a report to the state highway department headquarters in Bend. Highway maintenance men on the Santiam route reported a depth of 81 inches this morning, and with light snowfall continuing.

Snow flurries continued all along the summit of the Cascades, with more in prospect for tonight and tomorrow, the weatherman said.

A total depth of 66 inches of snow was reported at the summit of the Willamette highway, with four inches of new snow noted in the night. A depth of 55 inches was recorded at Government camp on the Wapinitia highway.

Packed snow conditions prevailed on the three major traffic arteries, with snow plows operating on the Santiam and Willamette routes.

**PORTLAND LIVESTOCK**

# 2 Midstate Men Travel Far; Airfield Created Near Rome

At a USAAF Airfield in Italy—Recently celebrating two years overseas with an outstanding aviation engineer battalion were T/3 Alvin J. Smith of Warm Springs, Oregon, and T/4 Richard J. Hunt of Astoria.

More extraordinary than most have been the experiences of these U.S. since sailing from a U.S. port early in 1943, they have traveled three-quarters of the way around the globe, covering a distance of more than 20,000 miles. They are one of the few outposts to boast continuous overseas service in two theaters of war, with operations extending to five continents.

It was in North Africa in the spring of 1943 that they discovered that their months of desert training at Camp Young, Cal., had not been in vain. Carving runways out of the soft sands, they saw swarms of bombers heading northward to deal out lethal blows that were to reduce Italy into submission. One morning, Liberators which had been practicing peculiar hedge-hopping tactics for a month on a miniature city that unit had built, set out on the now historic Ploesti raid that threw the wrench into Hitler's smooth-running war machine. Their outfit received personal commendation from the commanding general of the Mediterranean theater.

Shortly after the surrender, the battalion was constructing a new bridge of airfields spanning Italy, from which our bombers and fighters blasted away at enemy-held territory.

Last summer they completed one of their most important and confidential assignments. On a site north of Rome, within range of nazi guns, they converted a mine-cleared wheatfield into a temporary base from which huge transports glided into the sky bearing troops to the newly-occupied coastline of southern France.

Recently they were cited by General Eaker, chief of the Mediterranean allied air forces, for sustaining and promoting every

Well, Customers:

The Boss just told me that I had to write this ad, and told me to pick my own subject, so I have chosen to tell you something about motor re-conditioning.

New cars, new motors, and most everything else new in the automotive line must wait until that "V-8" Day we talk about. But next to a new motor is the re-conditioning job we can do on your Ford motor. Ford Motor Company puts the quality into the original motor which makes it so long lasting. However, in the past you have had the chance to replace your car often enough to keep the overhaul to a minimum.

Times are different now, so bring your car in and let us give you an estimate on re-conditioning the motor, and have that satisfaction that comes with knowing that it will take you out and bring you back.
