

Railroad Issues Lead on Market

By Elmer C. Walzer
(United Press Financial Editor)
New York, March 23 (UP)—Firmness in railroad issues and gains ranging to more than 2 points in several preferred stocks sustained the stock market today. Trading lightened.

Buyers continued cautious. Holders of stocks, however, were less eager to sell and hence prices displayed were firmer in all major sections. Common utility stocks had sufficient loser to bring small decline in the average.

Steel shares met occasional support and some held small gains. Motors improved with Hudson, an active feature, at a new high. Pressure lifted in oils after their recent decline on a tax decision which held intangible drilling costs may not be charged to current earnings.

Gains of a point or more were noted in such preferred as electric power \$6, American Power & Light issues, Consolidated Film, Lorillard, Lehigh Valley Coal, National Biscuit, and LaCie Gas. Austin Nichols preferred soared 3 1/2 points to 93 1/2, a new high.

PINE ORDERS GAIN

Portland, Ore., March 23 (UP)—The Western Pine association today released the following weekly figures on orders, shipments and production for the week ending March 17:

James Shepherd Back in States

After two years spent on the west coast of Africa, James M. Shepherd is quite willing to remain in the United States, he made plain yesterday while visiting in Bend. Shepherd, for years a resident of this city, has only recently returned to this country. He was manager of the General Petroleum service station and O.K. tire shop when he signed a contract to take charge of a vulcanizing plant for the British government at Lagos, Nigeria. His contract expired, he returned to this country in time to join his wife in Portland for Christmas of 1944. Now he is planning to open a tire plant in Colusa, Calif., as soon as material and equipment are available.

Few White Present
In an island area with 200,000 population, Shepherd was one of only 700 whites. He had no trouble with tropical diseases while he was at Lagos, but three days after his ship had put to sea on the return trip to America, he came down with malaria.

Before setting up in business in California, the Shepherds have one important engagement in Oregon, for their daughter, Edith, a graduate of Bend high school, is to be married in Portland on April 8.
