Alps Reported Goal of Nazis

London, March 28 (AP)—European reports said today that prominent Germans, including Foreign Minister Joachim von Ribbentrop and Adolf Hitler's personal physician, were fleeing south toward the Alps and the Swiss border to escape allied armies.

The reports followed increasing evidence that victory in Europe was approaching, though how soon it will come on authority would hazard a guess. The London News-Chronicle said the British war cabinet was "standing by" for Germany's collapse.

A Brussels broadcast heard by the Exchange Telegraph agency said Ribbentrop and the personnel of the German foreign office had arrived at Lake Constance on the Swiss border. With them, the broadcast said, was Dr. Ferdinand Sauerbruch, Hitler's personal physician.

Last Stand Probable
Another Exchange Telegraph dispatch, this one from Zurich, said at least four panzer divisions and German elite SS troops were stationed at Ariberg, high in the Alps of western Austria less than 20 miles from the Swiss border, possibly for a Nazi last stand.

The London News-Chronicle said the British cabinet members henceforth will remain within easy travelling distance of London as result of Prime Minister Churchill's report that the "end is in sight" following his trip across the Rhine.

Japs Decry Raids By U. S. Air Forces

San Francisco, March 28 (AP)—Japan's leading financiers, admitting fear of future B-29 raids that "will bring about vastly unbelievable damage" today united to raise some \$43,000,000 (M) in a desperate attempt to meet demands for relief of thousands of homeless, jobless Japanese.

An official spokesman "condemned" the "inhuman, cruel, indiscriminate bombings" of Japan's homeland as the empire's industrialists planned an all-out program to carry out "desperately needed relief work for war sufferers."

Seldom has Japan's critical internal situation been so clearly indicated. Detailed announcements recorded by United Press, San Francisco gave a grim picture of the tremendous damage wrought in Japan's major cities by Superfortress raids.

Sadao Iquchi, Japanese imperial board of information spokesman, "protested" the obliteration assaults launched by the B-29's. He said a formal protest had been presented to the United States government and entered the usual Japanese claim of "wanton" attacks on non-military objectives.

Eden Suggests Soldiers Deal With Nazi Chief

London, March 28 (AP)—Foreign Secretary Anthony Eden told commons today that Adolf Hitler is the major war criminal and that British soldiers could decide for themselves whether to shoot him on sight or bring him back alive.

Eden said that Hitler, as the major war criminal under the Moscow declaration, would be punished by joint action of the allies if captured.

Eden was asked by Ivor Thomas, labor member, whether it would be the "duty of the British soldier who seeks Hitler out to shoot him or try to bring him back alive."

Eden said "I am very content to leave that to the judgment of any British soldier."

COAST STORM ABATES
Coo's Bay, Ore., March 28 (AP)—Raging seas along the Oregon coast abated today but the wrecked lumber schooner, S.S. Alvarado, aground north of Coo's Bay, reportedly broke up into four pieces.

Manpower Bill Approval Asked

Washington, March 28 (AP)—President Roosevelt today asked the senate to pass the house-approved compromise manpower bill. Its failure to do so, he said, would hamper "successful conduct of the war."

The president said in a letter to Chairman Elbert D. Thomas, D., Utah, of the senate military affairs committee that the manpower situation "is still serious."

In an apparent allusion to what might be expected to happen after defeat of Germany, Roosevelt added:

Temptation Faced
In the days ahead of us there will be great temptation for workers to leave war plants."

The bill, written by house-senate conferees, would apply stiff penalties to both workers and employers who violate its terms. It would authorize the administration to freeze war workers in their jobs and to impose manpower ceilings on employers.

Passage of the measure, Roosevelt said, would place responsibility for "effectively and fairly handling the manpower situation squarely with the executive branch of the government."
