

Army Stallion Brought to Bend

Makanda, 16-year-old registered thoroughbred stallion, whose mission is to improve the standard of saddle horses in Central Oregon, has arrived in Bend, and will be put on display next Sunday at the Cavalry barns, it was reported today. The stallion was assigned here by the headquarters of the Western Remount at Pomona, Calif., and was shipped to Bend from Fort Robinson, Neb.

The stallion, who is the son of Cherokee and Sweet Lady, and has a pedigree of considerable length, comes from a lineage of noted thoroughbreds which were originally imported from England. He was assigned here by Col. F. W. Noester of the army quarter master corps, at the request of N. E. Gilbert, president, H. C. Terwilliger, vice-president, and Ken C. Gulick, secretary-treasurer of the Rim Rock Riders.

Is Proven Sire

Col. Noester explained in correspondence to the Rim Rock Riders that the army horse breeding plan for the improvement of riding horses was put into effect in 1920, and that now there are 700 stallions assigned to civilian agents in the United States.

In writing about Makanda, Col. Noester explained:

"In evaluating this horse, remember he is a proven sire. He has been bred for many years and produced many fine horses that we have seen, and some of which we have purchased."

Local horsemen point out that the stallion is an ideal saddle horse design, and is built for speed and endurance. He is being housed at the Brooks-Scantlon Lumber Company Inc. stables.

Ex-Bend Resident Maker of 'Ammo'

At least one former Bend man is making an enviable record for himself as a maker of ammunition for use against the foe.

He is Joseph T. Woods, who was born in Bend, attended school at Silver Lake, and later "punched" cattle on his father's midstate ranch.

Today, Mrs. Lornie Mills, 424 Harriman street, Wood's mother-in-law, received a clipping from the Herlong, Calif., Challenger. This is the location of one of Uncle Sam's ammunition plants.

Under a title "We point with pride," the newspaper devoted nearly a column to Wood's achievements at the plant, and his Oregon history.

Wood is married and has a four-year-old daughter, and has been

Victory in the West

Allied forces swept into Germany's heart with dazzling speed today. At the south end of western front, U. S. Seventh Army smashed across the Rhine south of Worms. U. S. Third Army was running wild, closing on Fulda, 50 miles beyond the Rhine. The U. S. First Army broke entirely out of its Remagen bridgehead, was 88 miles beyond Rhine. To the north, U. S. Ninth, British Second and Canadian First smashed Nazi defenses of Ruhr, closed on Essen, other major cities.

Church Prepares Special Services

The annual candle light communion service at the First Presbyterian church will begin tonight with a half hour sacred organ concert at 7:30. Those to unite with the church will meet with the session in the church parlor at 7:30. The altar will be lighted at 8:00. Following reception of members will be the candle light communion service. Members of the church and members of the congregation are urged to attend this worship. Rev. R. H. Prentice said.

Beginning Friday noon, First Presbyterians will join other churches in the annual three-hour observance of Good Friday to be held in the Trinity Episcopal church.

Signup Day for Farmers Set

Deschutes county farmers will earn approximately \$51,500 in soil conservation payments in 1945. It was estimated today by County Agent Howard G. Smith, who at the same time urged that farmers who have not signed up this year's farm plan, do so at once. He said that the farm plan signup must be completed before May 1 in order to receive permits under the 1945 program.

In order to assist farmers of that community, a second signup day will be held by the Eastern Star grange next Saturday. All farmers of that district who have not entered the program, were asked to report at the grange hall that day and signify to their intention of doing so. This signup will be handled by the Triple A committee.

136 B. U. CASUALTIES

Boston (AP)—A total of 136 Boston university men and one woman have been killed in action thus far during World War II, according to alumni records.

Infants' Shoes To Be Rationed

Starting May 1 shoe rationing will be extended to include the entire size range of infants' leather shoes, M. R. Collins, district OPA shoe rationing representative, announced today, in order to help build up critically needed supplies of infants' leather shoes in the larger sizes already under ration control.

At present, rationing covers infants' leather shoes in sizes 4 1/2 to 8, the size range most babies need when they begin to walk. There is an acute shortage of these sizes in many sections of the country, Collins explained.

Provision Explained

The new provision will put the smaller sizes 0 to 4, which are in relatively plentiful supply and worn chiefly by infants in arms, on the rationed list beginning May 1.

Knit booties and shoes made of substitute materials such as felts and fabrics can be worn by

very young babies, Collins pointed out, and it is believed these types of shoes should be adequate to take care of footwear needs of infants not yet at the walking stage.

However, parents who prefer to buy leather shoes for infants wearing the 0 to 4 sizes can still use current airplane stamp No. 3 in ration book 3 for which all new-born babies are eligible, he said.

Yank Prisoners In Hospital Freed

With the U. S. First Army in Germany, March 29 (AP)—A group of 277 seriously wounded American prisoners of war was liberated by the First Army yesterday when the ninth armored division captured a German hospital train near Wetzlar.

The prisoners were being evacuated by the Germans in filthy box cars without sanitation or other facilities.

In the past three days 5,695 German wounded have been captured in field hospitals which the enemy abandoned in the face of the first army advance.
