

# Only 18-Year-Old Boys to Be Called When Foe Licked

By John L. Cutter  
(United Press Staff Correspondent)  
Washington, April 5 (UP)—The war department expects to draft nothing but 18-year-old boys after the collapse of Germany, it was reported in congressional circles today.

Plans for army strength after V.E. day have been under discussion recently between military and congressional representatives in connection with two bills now pending in the senate.

One measure would extend the selective service act for one year beyond the present May 15 expiration date.

**Would Open Enlistments**  
The other would permit resumption of enlistments in the regular United States army instead of the wartime army of the United States. It is designed to build up a regular army force that will continue in service through the period of post-war demobilization of draftees.

Discussions in connection with those two bills, in addition to general demobilization plans, have given congressional leaders the impression that the army wants only 18-year-olds after Germany is defeated. Approximately 100,000 boys turn 18 each month, of whom about 70 per cent are acceptable under present draft regulations.

"They should be enough for the replacement problem confronting us in the war against Japan," commented one member of the senate military affairs committee. "The real job will be one of demobilization of the men already in service rather than drafting anything more than replacements."

**8,000,000 in Uniform**  
It was pointed out that the army already has nearly 8,000,000 men in uniform.

"That's more than we can use in the Pacific war," it was said. "We haven't even got the shipping to put that many men in the Pacific."

The navy revealed yesterday that it is lowering its calls for men through selective service and by June will be calling up only half as many as the 35,000 drafted monthly during the past year.

**Is Contemplated to Remain**  
It is contemplated that not more than 1,000,000 men will be left in Europe as an army of occupation. An undetermined number will be demobilized under a point system on which the war department has been working. Still others seasoned in European battles will be shifted to spearhead the Pacific drive. They will be augmented by the 18-year-olds drafted as they come of age.

Congressional leaders generally believed that all men over 18 who have not been drafted before the German collapse therefore will never see service in the present war.

Keeping quality of dehydrated vegetables increases markedly with a decrease in the moisture content.

## Helldiver's Final Plunge

(NEA Telephoto)  
A Navy SB2c Helldiver roars comet-like across Japanese sky after being set afire during U. S. Navy carrier-based plane attack on Yanoya airfield on Kyushu. The plane's pilot and crewmen safely cleared blazing plane, and can be seen falling to Japanese territory as their parachutes start to open.

## Like Orders Study Of Nazi Deaths

Paris, April 5 (UP)—Supreme headquarters announced today that a number of German war prisoners were suffocated in the course of rail movement to camps in France on March 15-16 while in the custody of American troops.

Gen. Dwight D. Eisenhower ordered an investigation and notified the German government through intermediate diplomatic channels.

An interim report, Shaef said, indicated that the prisoners died because of insufficient ventilation in a new type of American box car. Details were lacking.

## Bend Wave Serves At Pearl Harbor

Pearl Harbor, T. H., April 5—A Wave, Jeanne K. Fullman, seaman first class, of Bend, Oregon, has reported for duty in Hawaii. She is the daughter of Mr. and

Mrs. S. G. Murphy, 1345 Harmon Blvd., Bend. Before her enlistment in February, 1944, she was employed at the Columbia Air factory. She was formerly on duty at the naval air station, Pasco, Washington.

## First 1945 Fire In Forest Noted

The Deschutes national forest had its first fire of the season yesterday when nearly an acre of small trees and slashings burned over on the Sundown ranch on Indian creek, north of Sisters. It was reported today at the forest service headquarters here. The fire was believed to have been started from a burning barn, which was razed. No one was home at the ranch at the time, and the cause of the fire in the barn remained a mystery. While the location of the fire is in the Central Oregon Fire Protection unit, rangers from Sisters investigated the blaze.

## 2 Former Bend Boys Arrested

Two former Bend boys, one of them a parolee, are under arrest in Hood River, and have admitted the theft of at least three automobiles, state police reported here today. The boys, Richard Owens, 16, and his brother, James, 15, were taken into custody last night, according to information received here.

The alleged automobile stealing spree was said by police to have started Tuesday in Prineville with the theft of a car belonging to T. J. Minger. This car was abandoned in The Dalles, where a second machine was reportedly stolen by the duo, who then went into Washington. Here they abandoned this car, taking another which they had in their possession when arrested in Hood River, police said. The boys are said to have told officers they were en route back to Prineville when arrested.

Richard was arrested here last January in connection with the theft of some beer from an establishment on Minnesota avenue. He was paroled with the understanding that he go to work, and he then went to Prineville to work on a ranch where he had formerly been employed.

## 2 Arrests Made On Tieup Counts

Two more Bend residents have been arrested for assertedly permitting their dogs to run at large, as Bend police continued their campaign of enforcement of the tie-up ordinance. And at the same time, officers revealed today, that there are 10 dogs in the city pound, which were picked up as strays in different parts of the city.

Latest one to be arrested was A. M. Wickman, 720 Delaware avenue, who posted \$5 bail on a charge of permitting his dog to run at large. Yesterday, Henry N. Fowler, 636 Riverside drive, forfeited \$5 bail.
