

# Prisoner Names To Be Released

Next of kin of prisoners of war held in German camps are being notified by the war department that names of prisoners will be published immediately following checking and verification of serial numbers. Mrs. S. Detrick, chairman of the Deschutes county chapter American Red Cross, revealed today.

The great numbers of prisoners liberated by allied forces have made it impractical to follow the usual policy of notifying relatives of their release before general publication of information, Mrs. Detrick reported.

"It is believed that the new procedure will inform relatives much more quickly than before," she declared. "However, we urge relatives not to write the adjutant general for information regarding missing kin thought to be liberated as the information published will come direct from American authorities overseas."

**Warning Issued**  
In recent advice given to next of kin at a mass meeting in the east, the assistant provost marshal warned parents, wives and sweethearts not to be highly optimistic about immediate return. Stating that the last weeks have proved ones of disappointment in many cases, he emphasized that confusing conditions during liberation very often border on the tragic.

Request from the Deschutes county Red Cross offices is that relatives await news of release through the press and then wait for further developments. Attempts on the part of families to expedite the return of imprisoned G.I.'s will only clog the channels of release, it was brought out.

## Bowling Notes

Results of women's league bowling contests on the Bend Recreation alley last night follow:

**JUDGE HOPES FOR BEST**  
Harrisburg, Pa. (AP) — When Judge Robert E. Woodside discovered that an article had been stolen from the juvenile courtroom he commented, "I hope that whoever took it will make good use of it." The article stolen was a Bible.

Tongass national forest, Alaska, approximately 75% western hemlock, 20% Sitka spruce and 5% cedar, contains enough timber if cut on a sustained-yield basis to produce pulp for over 1,000,000 tons of newsprint a year.

## Building of the Railroads

By Cap Jessup, Jr. (Glchrist High School)  
More important even than steam navigation is transportation by railroads. Since a steam engine could turn wheels and move the machinery of a factory or a steamboat, why should it not be applied to a locomotive? The problem of the steamboat was solved in America; that of the railroads reached its first solution in England.

As the name of Robert Fulton is inseparably linked with the invention of the steamboat, so the name of George Stephenson will always be connected with the beginnings of steam railways. Stephenson, the son of a miner, was too poor to go to school, but he taught himself to read and write. He applied himself to the task of adapting Watt's engine to the moving of coal from the mines. His first locomotive was completed in 1814 and was used only for hauling freight. But in 1825 he perfected a line in northern England between Darlington and Stockton, twelve miles apart, for the carrying of both passengers and freight. The rails at first were made of wood with iron bands or straps nailed on top to protect them.

Thus began one of the great industries of modern times, one that has revolutionized the commerce of the world in all civilized

lands. In 1828 the Baltimore and Ohio railroad was begun in America, but at first horses and even sails as well as engines were employed in moving its coaches. In 1830 a railway line was opened between Liverpool and Manchester and a few years later it was extended to London. France made a beginning of building railways as early as 1828. In Bavaria and Belgium a beginning was made in 1835. Prussia began a little later, but once begun the work of constructing railways there went on rapidly. Europe now has nearly as many railways as the United States. In Germany, Belgium, Switzerland, Italy, and some other countries the railways are chiefly owned and operated by the government.

Hand in hand with the development of the steamboat and the railway came greater facilities in communication, almost as important as either in our modern life. First came the reduction of letter postage to the two-cent basis in England, through the efforts of Rowland Hill, in 1839. The example of reducing postage was soon followed in other countries; the most usual rates for letters being two or three cents for and distance within a country, and five cents for transmission to any foreign country. About 1840 the electric telegraph was invented, and the telephone in 1876, and to

these was added wireless telegraphy by Marconi, an Italian. The above-mentioned inventions affecting industries, transportation, and communication are but a few of the most important among the thousands of inventions and improvements that have caused the wonderful progress of the world in the last century and a half.

## Cavalryman and Sailor on Visit

Pals before the war, and widely separated during the conflict because of their different branches of the service, two Bend youths have been reunited here.

Showing their obvious pleasure at being together again, Pvt. William E. Craig and Clarence L. Koho, seaman 2/c related their experiences. Pvt. Craig is with the horse cavalry at Fort Riley, Kans., and Seaman Koho is with the 146th navy construction battalion at Port Hueneme, Calif. The cavalryman is the son of Mr. and Mrs. Wesley Thomas Craig of Carroll Acres; and Clarence is the son of Mr. and Mrs. K. J. Holman, 1231 Hill street. Pvt. Craig's visit was unique because he is the first cavalryman to be seen in Bend in this war. But the sailor's experiences were more interesting to him. He enlisted in the navy but was dis-

charged after serving five months and eight days because he was too young. Four months later, when he was old enough, he re-enlisted and has been in the navy this time seven months.

## Boys Hold Picnic Sunday Afternoon

A picnic and weiner roast was the order of the day for members of the junior boys class of the First Christian church when the group attended an outing last

Sunday afternoon in Shevlin park. Frolicing at the park were Lloyd and Donald Goodman, Billie Burke, Richard Nicholas, Reggie Halligan, Ronald Marsh, Jimmie and Richard Arthur, Ernest Parker, Pete Miller, Charles Pepper, Bob and Jeanie Burke and Sharon Roberts. Adults present were Mr. and Mrs. Marcus Jones and Mr. and Mrs. Fred Burke.

- Old Mill Vinegar Cider quart bottle 15c
- Camay Soap Beauty Soap 3 bars 20c
- Super Suds Concentrated 24-oz. pkg. 23c

### Foreign Dishes with an American Accent

For variety and zest why not prepare the famous dishes of other countries? You'll find they offer subtle, delicate flavor... appealing to the whole family. Here are three recipes for famous international dishes, none of which makes inroads on your ration books.

- RUSSIAN BORSCH**
- 2 lbs. beef stew meat 1 cup finely diced onion
  - 2 1/2 tps. salt 2 cups thinly sliced celery
  - 1/2 tsp. allspice 2 cups canned tomatoes
  - 4 cups coarsely grated raw beets 2 cups finely shredded cabbage
  - 1/4 cup lemon juice 1/2 cup finely diced green pepper or cut parsley

Slowly cook meat with salt and allspice in cold water to cover 3 hours. Strain; measure broth, adding enough water to make 4 cups. Combine grated beets and lemon juice. Cook green pepper, onion and celery in just enough boiling water to cover 15 minutes; add cabbage, beets and tomatoes; cook 15 minutes longer. Drain vegetables thoroughly; add vegetables to broth; heat to boiling. Serve with whipped or plain sour cream; sprinkle with parsley. Serves 6 generously.

- MEXICAN CHILI BEANS**
- 2 cups dried pink or red beans 1 bud garlic
  - 2 medium-size onions 3 1/2 cups cooked tomatoes
  - 1 large green pepper or 2 small chili peppers 1 tsp. salt
  - 2 small chili peppers 1 to 2 tps. chili powder

Pick over beans; wash; place beans in large kettle; add water to cover; partly cover kettle. Cook slowly 1 hour. Add sliced onions, peppers, minced garlic, tomatoes, and salt. Continue cooking slowly about 2 hours longer, or until beans are tender but still hold their shape. Add more water as needed to keep beans well covered with liquid. Add chili powder to taste just before serving. Serves 6 generously.

**I SEE YOU'RE A CLOROX "FAN," TOO!**

**INDEED I AM... FOR CLOROX-CLEANSING IS AN ADDED SAFEGUARD TO HEALTH!**

**WHY TAKE CHANCES!**  
"When it's CLOROX-CLEAN it's hygienically clean!"

**HOUSEWIVES** naturally want to take every practical precaution in protecting the health of their families. That's one of the reasons Clorox is so popular throughout the nation. For Clorox disinfects... used in routine cleansing of kitchen, bathroom "danger zones" and in laundering it provides sanitation, greater health protection.

**Sanitary Kitchens Are Safer!** In kitchen cleansing it's important to make germ "danger zones" sanitary. The simple, efficient way is to use Clorox in routine cleansing of refrigerators and other food containers, sinks, drainboards, china and glassware; dishcloths and mops, dish towels; floors, garbage containers.

**Make Bathroom "Danger Zones" Clorox Clean!** In bathrooms ordinary cleansing is not enough, for bathroom surfaces may look clean yet be covered with invisible germ dangers. Here again Clorox provides greater sanitation in the cleansing of tile, enamel, porcelain, linoleum and wood surfaces.

**HOME SANITATION GUIDE**  
Use Clorox to remove stains, deodorize and disinfect in routine cleansing of "danger zones" such as:

- Basins
- Bathtubs
- Dishes
- Dishcloths
- Drainboards
- Drainpipes
- Enamel Ware
- Food Bins
- Fruit Jars
- Garbage Containers
- Glassware
- Linoleum
- Marble
- Porcelain
- Refrigerators
- Shower Floors
- Sick Room Utensils
- Sinks, Tile
- Thermos Bottles
- Toilet Bowls
- Windows
- Wood Utensils
- Woodwork

Simply follow directions on the label.

**Make White Linens Beautifully White, Sanitary!** Clorox gently bleaches white cottons and linens snowy-white (brightens fast colors), removes stains, scorch, mildew. It also deodorizes and disinfects. And Clorox reduces rubbing... thus prolonging life of fabrics.

**AMERICA'S FAVORITE BLEACH AND HOUSEHOLD DISINFECTANT**  
**CLOROX Disinfects**  
DEODORIZES • BLEACHES • REMOVES STAINS  
IT'S FREE FROM CAUSTIC
