Death of FDR Affects Stocks

By Elmer C. Walzer
(United Press Financial Editor)

New York, April 13 (UP)—Stocks dipped momentarily at the opening today on the death of President Roosevelt and then resumed their rise for the fourth consecutive session.

Volume increased on the recovery with the utility department supplying the greatest group turnover. This section accounted for about one-third of all the business done on the exchange. The utility average rose to a new high since August 14, 1937.

Commonwealth and Southern featured initial dealings. Heavy volume also came into United Corporation, Columbia Gas, American power, Electric power, North American, and American Water Works. International Telephone had heavy turnover in the communications. Gains in the utility section ranged to more than a point.

Other sections of the market were quieter but firm.

Amarillo, Tex., has purchased six square blocks of land for \$45,000 as a site for a war memorial.

THE OLD JUDGE SAYS...

"When this war is all over, Judge, there will be some mighty interesting books written about it. Expect we'll learn a lot of things we didn't know before."

"Yes, Fred, when the record is finally written we'll realize what a gigantic operation this war really was and how important to final victory many factors really were."

"Take, for example, just one industry. Few people realize the importance of the great work done by the beverage distillers during the war. A high government official
