

Stocks on Market Reach 8 Year High

By Elmer C. Walzer
(United Press Financial Editor)

New York, April 24 (UP)—Stocks rose to 8-year highs today on increased turnover as Wall Street awaited word of a junction of American and Russian forces on the Berlin front expected to herald V-E day.

War and peace stocks alike participated in the general advance. Railroad stocks led in volume and their average hit a new top since June 10, 1937. Utilities with small gains went into a new high since July 31, 1937 and the industrial list was at its best level since September 16, 1937. These gains lifted the general market average to its highest point since August 25, 1937. Sales crossed the million-share mark before 1 p.m. and the trading was fairly active for the rest of the day.

New York Central, tip top in volume, made a new high on a gain of more than a point. Other top-ranking rails joined it. High and low-priced motors were strong with the latter active. Rail equipments, liquors, steels, oils, chemicals, and special issues moved ahead.
