

# Stocks on Mart Reveal Advance

By Elmer C. Walzer  
(United Press Financial Editor)

New York, May 11 (UP)—Stocks advanced today after four sessions of decline. Volume, however, fell off to the lowest levels in a month.

Railroad issues, weak yesterday, came back fractions to two points in Norfolk and Western. Santa Fe, Gulf Mobile and Ohio, Nickel Plate preferred, Chicago Great Western preferred, and Baltimore and Ohio gained a point or more.

Hudson featured the motors in turnover and gained a fraction. Other motors were firm. Studebaker made a new high and held half of a one-point rise made at the opening. American Airlines lost a point while Transcontinental and Western rose a point. U. S. Rubber rose a point in its department. Lockheed made a new high to feature the aircraft. Gold mining shares made new highs early in the day and then turned irregular.

McIntyre Porcupine, an exception to the late trend in the golds, held a gain of more than a point. Utilities moved irregularly but enough rose to bring a small rise in the average. In the oils, prices were mixed. Superior oil of California, a wide mover, spurred 5 points on one transaction.

**Honestly, Now:**

If a youngster ran in front of your car could you "stop on a dime?" Or let's put it a little differently, if your youngster or neighbor's youngster was playing in the street would you like to feel that someone else could stop quickly enough to prevent an accident that might easily cripple or kill the child?

Certainly that is a scare heading but it isn't such a remote possibility particularly if your brakes are not in top condition. Why not come in and take advantage of our expert services on brakes. No adage was ever truer than "better be safe, than sorry" when talking about the brakes on a car.

I saw a certain prominent man driving down Wall St. the other day. What he was looking at had to do with driving (surely, she was good looking and dressed to taste). But it was a good thing we had adjusted his brakes or some of our best insurance talent would have been busy (no extra charge to the insurance men for the plug).

Who was it? Wouldn't you love to know? I'm saving the incident and maybe he will give me an extra stroke on the golf course, or is that blackmail?
