From where I sit... by Joe Marsh

Lud Denny Lends a Helping Hand

Lud Denny got home early from the plant the other day, and found his misus in the middle of housecleaning, with the furniture moved around, and the place a shambles.

Some men might have grumbled about getting precious little time off, and finding their home upset. But not Lud. He just took his coat off, and pitched in and helped.

And when he got the last curtain in place, and stepped down off the ladder, there was his misus with a tray of cold beer and

cheese blintzes she'd made for Tap. And blintzes are Lud's favorite dish.

From where I sit, it's little things like this that will help ease our troubled lives today—see us through difficulties—keep alive the spirit of good fellowship and mutual respect. Try trading a helping hand for leecold beer and blintzes. See if it doesn't make life seem a little brighter!
