How to Apply for Canning Sugar

Uncle Sam says: Essential home canning must be carried on in the face of the critical sugar supply!

To make sure that each housewife who needs sugar for canning, and who will use it for that purpose, obtains her proper allotment, all 1945 home-canning sugar will be issued through her local war price and rationing board, on the following basis:

For canning fruits or fruit juices, one pound of sugar for each one quart to be canned.

Total allowance must not exceed 15 pounds per person or 120 pounds to a single family—even when the family exceeds eight persons.

Of the 15-pound-ration per person, the housewife may use up to 5 pounds for canning vegetables, or making jams, jellies, relishes, catsup, etc.

Here is what you do:

1. Obtain from your local war price and rationing board, OPA form R-341 after May 15.
2. Fill out form completely.

3. Attach "spare stamp 13" from war ration book IV for each member of the family covered in the application.

4. Submit filled-in form R-341, with "spare stamp 13" attached, to your local board, in person or by mail.

Be sure to apply for sugar well in advance of the time you will use it. Since application will be studied carefully by the board, immediate action on your application is not possible.

After the application is approved, home canning coupons may be given or mailed to the applicant. These coupons are one-pound and five-pound denominations. The five-pound coupons must be endorsed by the applicant or any member of his family unit listed on the application before they can be spent. The serial number of the endorser's war rationing book IV must also be placed on these coupons. The expiration date for five-pound coupons is November 10, 1945.

Radiotelephone service was established from Ecuador to Argentina, Uruguay and Paraguay in January of this year.
