

### Car Shares Lead Eastern Market

By Elmer C. Walzer  
(United Press Financial Editor)

New York, May 18 (UP)—Auto-mobile shares led a moderately active rise on the stock market today on indications of early return to high production schedules for civilian use in the industry. Chrysler ran up more than two points and General Motors gained more than a point. Hudson was active but it sagged after an early rise and other low-priced shares moved narrowly.

Columbia gas issues stood out in volume, notably the common. All the group made new highs on grains running to more than point in the preferreds. American and foreign preferreds had gains running to nearly three points. Common stocks of the utility group were active and steady to firm. The utility average made a new high since April 16, 1937.

Airline issues rose to new highs on gains running to two points in American. Ralls were steady to firm, steels strong on gains running to a point, and numerous special issues made wide gains. In the latter, Real Silk hosiery preferred soared 1 3/4 points and International Silver gained nine points, each to new highs. Amusements were bid up to around their levels of the year.
