

Leaders Register Market Declines

By Elmer C. Walzer (United Press Financial Editor)
New York, May 22 (AP)—A move to double the wage increases allowed under the little steel formula today arrested a modest rise on the stock market.

Prices turned irregular and most of the leading groups registered declines. Selective buying went ahead in special issues and some of them had gains ranging to 3 points. Trading generally was dull.

Commonwealth and Southern topped the active list by virtue of a 20,000-share block. The rails provided several active issues, including Baltimore and Ohio, New York Central, Delaware, Lackawanna and Western, and Le High Valley. These slipped back from early highs. National Power and American and foreign Power second preferred were active and at new highs.

Leading steels gained slightly on the OPA move to allow steel price increases. The smaller steel unit shares barely held their own. Motors were irregular. Texas company rose nearly a point. Sears-Roebuck and Lane Bryant made new highs in the merchandises.
