

Annual 4-H School Dates Announced At State College

Oregon State College, Corvallis, May 24—The annual 4-H club summer school, cancelled last year because of lack of housing facilities, will be held this year on the campus from June 19 to 29, H. C. Seymour, state 4-H club leader, announced this week.

Attendance will have to be restricted this year, however, to a maximum of 1,000 youngsters, Seymour said, and county quotas will be determined on the basis of the relationship of completion of club projects in each county to the project completions in the state as a whole. Pre-war attendance at these summer sessions had passed the 2000 mark and more than 1850 were here for the last previous school in 1943.

This will be the 13th annual 4-H club summer school held at Oregon State college. The first school was held here in 1915 and they had run continuously since then until last year.

Selections Explained

In filling the quotas assigned by the state office to counties, Seymour has recommended that 4-H club agents throughout the state make their first selections from boys and girls who now have scholarships earned last year or previously which they have been unable to use. He suggests that second preference be given winners of community scholarships. Any remaining vacancies in the county quota would then be filled by youngsters paying their own way.

The club members will be housed in one of the women's dormitories and several sorority and fraternity houses. The men's dormitory is not available since it is occupied by army specialized training unit students. A number of the fraternities and sororities likewise are not available because of previous commitments for the summer.

Bend Airport

(Continued from Page One)

sible, a landing strip in the city proper for the use of business commuters from midstate points, as well as greater distances.

Redmond Field Mentioned

In commenting upon the Redmond army air field, which probably will be returned to that city eventually, Wilcox remarked: "In my opinion that field is larger than Redmond will have use for in the next 25 years."

He mentioned the field built by the Redmond Civil air patrol at Cline Falls, and commented on the nation-wide publicity the building of the field in one day received.

"This goes to show," he said, "that you don't have to think of airports in the terms of millions."

In this connection, board members Dr. Pearce, Maroney and Roberts urged municipalities to raise their own building funds, rather than to wait on the federal government, and advised that federal aid should be used lightly for fear of relinquishing local control.

Heavy Use Pictured

Commissioner Loyde S. Blakley envisioned the post-war aviation future for Bend, and said that he believed in peacetime there would be at least 200 local airplanes based on the Bend field. He cited facts and figures designed to show the civil aeronautics men the need for a large airport here. He mentioned the present Bend industrial fund of \$23,500 which could be diverted to airport and aviation expansion and resultant tourist trade, and said he believed Bend would be willing to match any federal aid granted for this purpose.

Under questioning by chairman Devaney, the following ideas were advanced:

A. J. Tilse, operator at the Bend field: "Set up the machinery and prepare to match federal funds."

Tom Brooks, Bend chamber of commerce aviation committee: "Have a program ready before the next legislature, so that we can take advantage of any possible federal aid."

Judge A. R. Bowman, Prine-

ville: "Improve the Prineville field with lights and water, so that it may be available for use of private fliers as well as the forest service."

Supervisor Henry C. Hulett of the Ochoco national forest, Prineville: "Improve airports in the forest regions so that planes might take off with smoke jumpers in-time of fires. Landing strips in small communities will be of aid to timbermen and stockmen."

Stripes Advocated

Dick Ballantine, flying instructor, Redmond: "Establish pre-flight training in our schools."

Theodore J. Wells, Redmond mayor: "Provide federal funds to help in the maintenance and operation of local airfields, such as will be the need in Redmond."

Maurice Hitchcock, Sisters lumberman: "Build smaller landing strips where you can get the most utility from the planes—close in to your business centers."

William Niskanen, state legislator from this district: "Don't wait for the state legislature to give you funds which it cannot provide. Use other means of raising your money, such as taxing airplanes, increasing the taxes on aviation fuels and oils."

Chairman Devaney explained that the purpose of the state-wide trip by the board was to learn the needs of the communities so that the board might submit a tangible building program to the federal government. Those present were then given questionnaires on which to write suggestions and be forwarded to the board.

Besides the officials, the following persons attended the meeting: From Bend, Ward H. Coble, Tom Brooks, Lloyd Blakely, Delbert Hale, Walt Howard, James A. Chamberlin, C. Lermo, A. T. Niebergall, C. G. Reiter, A. J. Tilse, Robert W. Sawyer, Willa McCann, William Niskanen, and Don H. Peoples.

From Redmond, P. M. Houk, J. R. Roberts, Lester Houk, Dick Ballantine, Marlon Coyner and Theodore J. Wells.

From Prineville, H. L. Munkres, Mayor F. Barney, Henry C. Hulett, C. A. Thompson, Ralph Scroggan, Frank Stratton, Edward Van Winkle and A. R. Bowman.

From other points: Herb Meeks, Hampton; Bill Meeks, Brothers; George P. Huguet and Oscar C.

Davis, Burns; George E. Wakefield, Sisters; E. B. Bennett and Roe Davis, Burns; W. A. ("Billy") Rahn, Millican; J. K. Hulsey, Gilchrist, and Maurice Hitchcock, Sisters.

Georgia Greeted General Hodges

Atlanta, Ga., May 24 (AP)—Hundreds of thousands of Georgians, in the wildest reception here in a decade, today greeted with 17-gun salutes their conquering hero, Gen. Courtney H. Hodges, commander of the U. S. First army.

The big C-54 transport bearing the famed commander set down at the army air base adjoining the municipal airport and two other transports bearing 49 other decorated heroes in the victory in Europe, landed a few minutes later.

Gets Big Ovation

Hodges stepped from the first plane to be greeted by the welcoming committee and set in motion the nation's first big tribute to the men who brought victory in Europe.

One hundred fighter planes, two squadrons of medium bombers and a score of B-29 Superfortresses circled the base—symbols of the nation's fighting power.

"Boy, it's good to be home," the general shouted above the roar of 17-gun salutes. "Where's my wife?"

Mrs. Hodges was waiting for him at the other end of the 15-mile parade that ran from the airport to the Georgian Terrace hotel.

Morotai Island Landing Reported

(By United Press)

Tokyo radio claimed Thursday that Japanese storm troops have landed on Morotai island, American base off the north coast of Halmahera and 400 miles southeast of Davao in the Philippines.

The enemy broadcast heard by United Press in San Francisco, said "surprise raiders" came ashore at night on landing barges, penetrating the American coastal cordon.

Drivers Ordered To Resume Work

Chicago, May 24 (AP)—Raising-seeking Chicago truck drivers were returning to their war-vital jobs today to end a paralyzing week-long strike called off less than six hours before the government was to have seized trucking lines involved.

Officials of the Independent Chicago Truck Drivers Union ordered the 6,500 strikers back to work shortly after President Truman authorized the office of defense transportation to take over as of 12:01 today.

The president's order came while an estimated 1,500 specially-detailed troops camped on the shores of Lake Michigan ready to seize and operate the 10,000 trucks idled by the walkout, which halted deliveries of food, drugs and war materiel in the Chicago area.

To Obey Order

Harry L. Gormley, regional director of the ODT's highway transport division, said his organization would proceed to carry out the executive order and that the truck lines would continue temporarily under technical custody. About 1,200 such firms were affected.

Union attorney Raymond F. Hayes said he had been advised by George W. Taylor, chairman of the national war labor board, that the WLB would hold an early public hearing to reconsider union demands for higher wages.

Last Story Hour for Boys and Girls Set Saturday

The last story hour of the school year will be held Saturday from 11 a.m. to 12 noon in the Deschutes county library. This service has been a regular Saturday feature for children between the ages of four and 10 years, and will be resumed next fall when school starts.

It is tentatively planned to continue the story hour programs at Harmon playground during the summer. Announcement will be made when arrangements are completed, the library staff reported.

Beta Sigma Phi to Staff Bond Booth

Meeting Tuesday evening at 7 p.m. for dinner in the Pine Tavern, members of Beta Sigma Phi made plans for bond booths which they will staff in local theaters, and learned that 15 Bend residents had signed as blood donors for the next trip to Portland sponsored by the sorority, to be made June 8. Following the dinner, an infor-

mal discussion on etiquette was led by Miss Eleanor Bechen, the girls' adviser.

Others present were Phyllis Olsen, Helen Faddis, Leola Olson, Laverna Ballard, Marion Bloomquist, Louella Sanders, Ruth Yielding, Carola May, Elizabeth May, Jean Watson, Katy Wise, Gerry Arney, Ann Staples, Dorothy Applegate, Mary Alice Schilling and Elizabeth Beaver.

A conservative estimate is that 1% of all school children have rheumatic heart disease.

Every Real Fisherman will agree that

FISHING

is the Ideal Mind and Body Builder!

That's why the Marines want fishing tackle for fighting Marines returned from the South Pacific. These men are sick in mind and body. Their medical officers have prescribed fishing as the perfect means of building these men back to health.

ANGLERS... YOU CAN HELP BY SENDING FISHING EQUIPMENT TO RETURNED MARINES!

They need rods, reels, hooks, lines, flies, general gear of all kinds. Even damaged equipment is acceptable as they have adequate means for repairing fishing tackle.

This statement prepared and released by BLITZ-WEINHARD COMPANY to assist in the collection of recreation equipment for the Marine Barracks at Klamath Falls, Oregon.
