Truman Confers With Hoover

Washington, May 28 (UP)—President Truman conferred for 45 minutes with former republican president Herbert Hoover today, and it was announced that two former GOP presidential candidates, Alf M. Landon and Gov. Thomas E. Dewey, also have been invited to the White House. Hoover, returning to the White House for the first time since he turned it over to the late President Roosevelt on March 4, 1933, discussed with Truman the United Nations' gigantic problem of feeding the liberated peoples of Europe.

The White House said Landon and Dewey had been invited to call on the president, but no specific topics for discussion were mentioned.

A White House announcement said today's conference "was a good pleasant meeting" and that "Mr. Hoover had some very constructive ideas which the president was happy to receive." A White House secretary said he did not know whether the two men would confer again or whether Truman planned to offer Hoover a post in connection with food and European relief.

Natives, French In Bloody Fight

London, May 28 (UP)—Dispatches from Levant today reported bloody skirmishing between the French and natives at Homs and Hama, with an unspecified number of casualties on both sides.

The tension in Syria and Lebanon exploded in violence, according to Beyrouth advices, coincident with a report in diplomatic quarters here that President Truman might be called upon to mediate the dispute.

Reports that French troops were withdrawn from Homs, Hama and Aleppo to camps on the outskirts were followed by dispatches which said shooting had broken out in the first two towns. The combatants were natives, demonstrating for the full independence of the Levant, and unspecified French groups, apparently the troops.

Damascus reports relayed through Beyrouth said telephone lines to both Homs and Hama had been cut, and details of the bloodshed were lacking.

The diplomatic correspondent of the London Daily Telegraph said President Truman's aid might be sought to prevent further bloodshed in the crisis, which already has inflamed the Arab world.
