

Truman's Talk Halts Decline

By Elmer C. Walzer
(United Press Financial Editor)

New York, Jan. 21 (UP)—President Truman's message to congress today advocating a sharp cut in spending and mentioning a budget balance arrested a decline in the stock market that had reduced the high-priced leaders by 2 to 5 points.

Trading dropped off sharply from the recent pace as Wall Street tried to digest a long list of difficulties that have developed in the past few days. These included the move putting the market on a cash basis, effective today, talk of government taking over the steel and meat plants, uncertainties over extending price controls, and the general labor situation.

First reaction to the various items was selling over a broad list. The brunt of the early decline was borne by the steels, motors, liquors, chemicals and airlines. Preferred stocks and high grade investment issues met considerable pressure.

President Plans Winter Vacation

Washington, Jan. 21 (UP)—President Truman may take a short vacation in Florida next month.

The White House today declined to give dates or possible location, but said Mr. Truman "may possibly take a short vacation which will take him to Florida."

Press secretary Charles G. Ross added that plans for the trip are still "quite tentative."
