Bend Acquires Ball Diamond In Quick Move

Property in South End Of Town To Be Bought From Deschutes County

Bend today was assured a new baseball field, as a result of action taken last night by the city commission.

Convinced after a survey that the grounds on which the government trailer camp was erected at East Fourth street and Roosevelt avenue were suitable, Commissioners Gerald W. McCann and Melvin Munkers quickly voted to buy the property from the county. Mayor A. T. Niebergall was absent. County commissioner A. E. Stevens, who was present, said that it would take about four weeks to complete the transaction.

Delegations Present

Delegations from the chamber of commerce, the Jaycees and the John L. Chute post of the American Legion were present to urge quick acquisition of the property and its development. Likewise the commission had before it a strong plea from the Elks lodge, signed by Exalted ruler R. A. Ferguson. The Chute post is sponsoring a junior baseball league here.

Agitation for a new field grew after reports that the city was considering using O'Donnell field for industrial warehouse sites. Representatives of the different civic and fraternal organizations were asked to make a survey of the city for a new baseball field, and they reported the old trailer camp as the most favorable.

Rodeo Mentioned

Suggestion was made that the property south of the camp be utilized for a rodeo grounds, but N. R. Gilbert, president of the Rim Rock Riders reported that his organization was studying other locations. Since the rodeo and water pageant had been suspended by one committee, Commissioner McCann expressed regret that the officials had heard nothing from those interested in the water event.

Employment for a number of returned veterans was seen after McCann moved that they be employed now in razing non-essential buildings on O'Donnell field. This proposal met with the hearty endorsement of William Byers, in charge of veteran employment in the U.S. employment service here, who attended.

Fund on Hand

City manager C. G. Reiter reported that the city has a fund (Continued on Page 5)

Miners To Seek Higher Wages

Washington, Feb. 21 (UP)—The United Mine workers touched the button today for a new wage drive for the nation's 500,000 coal miners.

After a two-day conference of district presidents with international president John L. Lewis, it was announced that they had voted unanimously to call the union's wage policy committee into session here March 11.

Up To Committee

The union's brief announcement gave no explanation of the purpose of the conference, except to say that the 200-member policy committee "makes all decisions affecting wage matters."

It was evident, however, that the mine union intends to press for higher wages.

Its 1945 contract carried a provision allowing either the operators or the UMW to reopen the wage clause at any time in the event of changes in the government's wage stabilization policy.

First President To Be Honored

In observance of the 24th anniversary of the birth of George Washington, first president of the United States, all official business will be at a standstill in Bend tomorrow. The postoffice, city, state, federal and county offices will be closed, as will the local banks.

Most business houses will be open as usual, and school children will not get a holiday.

Down town merchants will display flags, and the occasion will be marked by observances by different religious and fraternal organizations.

Jap Imperial Family Poses

On the front terrace of the imperial residence at Tokyo, Emperor Hirohito and his family stand for a photo. In the front row, left to right, are Crown Prince Akihito and Princess Suga. Just visible over the Crown Prince's shoulders is the face of Prince Yoshi. Others are, left to right: Emperor Hirohito, Princess Yori, the Empress, Princess Taka, Princess Shigeko Higashikuni, her son, Nubuhiko, and husband, Prince Higashikuni.

North Unit People Meet Here With Reclamation Official; Water Hearings Come To End

Concluding two days of hearings here with Central Oregon irrigationists late yesterday, R. J. Newell, regional director for the U.S. Bureau of Reclamation with headquarters at Boise, today made an inspection trip of the North Unit irrigation project. He was accompanied by Clyde H. Spencer, construction engineer in charge.

In the sessions the director heard requests for different improvements in the Swalley, Tumalo, Lone Pine, Arnold, C.O.I. and North Unit districts, and especially the development of a reservoir at the Benham falls site.

In discussions with the North Unit representative yesterday, the matter of supplemental water storage, contracts with settlers, preparation of lands for water, maintenance and possible changes in the system and possible inclusion of additional acreage were among subjects taken up.

Those attending the North Unit meeting were Lt. A. J. Burris, Madras; A. J. Sandoz and D. J. McLellan, Jr., of the Jefferson water conservancy district; R. A. Hunt, Jefferson county agent; Ben Evick, Madras; Attorney T. Leland Brown of The Dalles, legal representative for the Jefferson water conservancy district; Howard W. Turner and E. M. Bone, both of Madras.

Director Newell planned to leave here late today for a swing through Washington, with his schedule calling for him to attend a meeting in Burley, Ida., on Saturday.

More were known to be alive and British infantrymen were aiding in rescue attempts. British ambulances stood by at the pit head.

Cause of the explosion yesterday in the big Ruhr mine between here and Dortmund had not been determined. One official said "I would have regarded the mine as one of the safest in the country."

Director Newell planned to leave here late today for a swing through Washington, with his schedule calling for him to attend a meeting in Burley, Ida., on Saturday.

Officials said prospects of rescuing the majority of the entombed men appeared "fair."

The explosion completely wrecked one shaft and shattered hundreds of windows in the vicinity.

Witnesses said Steely moved between the engine and the first coach to hook up a coupling when the locomotive suddenly backed up, knocking him to the ground and crushing him under the wheels.

He died shortly after in the civilian hospital from internal injuries.

Sailors In Indian Navy Mutiny Anti-British Riots Flare in Cairo

Bloody Fights Rage In City; Many Killed

Army Infantry, Tanks Sent Into Action as Crowds Jam Avenues

Cairo, Feb. 21 (UP)—Anti-British rioting flared through Cairo today with inflamed Egyptian bands storming all British military establishments in the center of the city and 140 casualties were reported in only one of the many bloody skirmishes.

Thousands of Egyptians thronged the Cairo streets brandishing clubs and clamoring "revolt against the British" and "down with the British." As fast as harried authorities dispersed crowds, the demonstrators regrouped at other points.

British machine gunners opened fire on a mob charging the Ksar el Nil barracks. Early reports said 10 men were killed and 130 wounded in the battle touched off when the demonstrators broke through the gate and onto the parade ground.

Tanks in Action Army infantry and tanks, both British and Egyptian, went into action on a battle scale. They took over from the outmatched Cairo police and imposed virtual martial law on the city which for two weeks has been wracked by sporadic manifestations against the British.

The demonstrations began as student affairs. Today masses of Cairoites, armed with sticks or whatever weapons came to hand, were in action against the British military centers, with outbursts of violence reported from all quarters of the city.

British military trucks and other vehicles were attacked wherever they appeared. Time after time they were overturned and usually they were set afire before the shouting bands departed.

Buildings Fired Demonstrators set fire to British army buildings and smashed foreign shops in the area of the Ismailia square.

A crowd moved menacingly upon the British embassy. Armored cars of the Egyptian army barred the way. After a period of indecision the crowd halted before the barrier, and police began dispersing them.

Other Egyptians attacked Royal air force messes near Ksar el Nil street and threw flaming cans of gasoline into British buildings.

Caribbean Lands To Get Steadily Increasing Measure Of Self Government, Says Truman

Washington, Feb. 21 (UP)—President Truman reiterated today that it is his government's policy to give its Caribbean possessions a steadily increasing measure of self-government.

In the case of Puerto Rico, President Truman said, a recommendation already has been presented to congress which would permit its people to determine the question of eventual independence from the United States.

In addition, he said, this country looks forward to more and more self-government for the Virgin Islands.

The president's remarks were made in connection with the opening of the West Indian conference of dependent and non self-governing territories in the Caribbean at St. Thomas in the Virgin Islands.

His statement was presented to the conference by Charles W. Taussig, chairman of the A. S. delegation.

President Truman pledged that American policy in the Caribbean would conform to the united nations charter in promoting the political, economic, educational and social development of the peoples.

"This government takes the view," he said, "that members of the united nations which have responsibilities for the administration of non self-supporting territories in this region have undertaken a solemn obligation in this respect."

The president added that the United States was gratified to note that France and the Netherlands had joined the conference. This country and Great Britain

round out the membership. Turning specifically to this country's Caribbean possessions, President Truman said:

"This government looks forward to an increasing measure of self government by the people of the Virgin Islands of the United States. With respect to Puerto Rico, it has been recommended to the congress of the United States that it provide a means by which the people of Puerto Rico might choose their form of government and ultimate status with respect to the United States.

The president also pledged this government "to support any suitable plan which would bring the non self-governing territories of the Caribbean region into closer co-operation with each other, with a view to developing the educational, social and cultural institutions of the region."

The president also pledged this government "to support any suitable plan which would bring the non self-governing territories of the Caribbean region into closer co-operation with each other, with a view to developing the educational, social and cultural institutions of the region."

Pauley Retains Truman Backing

Washington, Feb. 21 (UP)—President Truman today reiterated his support for Edwin W. Pauley, whom he nominated to be under-secretary of navy.

Pauley's chances of confirmation were skidding rapidly downhill today as the senate naval affairs committee probed his oil dealings.

Mr. Truman asked whether he intended to withdraw the Pauley nomination in view of a demand by Sen. Tom Stewart, D. Tenn., that he do so. Mr. Truman said no.

Stays Behind Man "Then Pauley still has your full support?" he was asked.

Yes, the president said. He explained that when he gets behind a man he stays behind him.

This has been President Truman's position consistently since his nomination of Pauley provoked the current controversy in congress.

Senate republicans made no effort to hide their enjoyment of the discomfiture Pauley's nomination has brought the administration.

Snell To Visit Bend Monday, Give Awards

Tickets went on sale today at the Chamber of Commerce office for the public dinner-meeting of the chamber to be held at the Pilot Butte Inn next Monday night at 7 o'clock, when Gov. Earl Snell will be principal speaker. Reservations must be made for the dinner, Manager Howard J. Steib of the chamber said.

The meeting was called primarily by the governor who will present congressional awards to selective service officials of Harney, Jefferson, Deschutes and Crook counties. Sixty selective service officials, mayors and others from these counties are expected to attend.

Strike Idle Put At Over Million

The nation's strike-idle pushed beyond a million again today as a walkout of Detroit dairy workers spread and Houston garbage collections were halted by a strike of city employees.

At Detroit, 250 CIO united dairy workers employed in five more dairies went out to support wage demands. Four creameries yesterday were affected by a strike of 1,250 production workers, tying up 60 per cent of the city's milk deliveries. Several hundred drivers not involved in the strike were forced to stop work.

Bus and street car service was scheduled to be resumed this afternoon at Lancaster, Pa., where negotiators for 250 AFL transit workers agreed to a compromise wage settlement. Picket violence and a citywide labor walkout marked the 16-day strike.

Picket Line Broken The entire picket line at the strikebound W. A. Jones Foundry and Machine Co. at Chicago was broken, as sporadic fighting went into a third day. Police took 131 pickets to court, bringing the number of arrests to 1
