

Stocks Irregular; Market Stronger

(United Press Financial Editor) New York, Oct. 21 (AP)—Stocks made an irregular advance today on improved commodity markets. Enough of the leading rails, industrials and utilities advanced to lift the averages. A long list of specials gained 1 to 2 points and some preferreds had wide gains, notably Robert Reis First Preferred which spurted 7 points to 112.

Wheat ran up 5 cents a bushel, the permissible limit of gain, and closed at 4 1/2 cents. Corn gains ranged up as much as 3 1/2 cents and barley 3 1/2 cents. Cotton futures opened on losses ranging to \$10 a bale and recovered most of the loss. Hogs rose \$1 to \$2 a hundred pounds.

PORTLAND LIVESTOCK Portland, Ore., Oct. 21 (AP)—Livestock: Cattle 1900; calves 550; market uneven. Good steers 5.00-6.00 higher than week ago. No such cattle available last week. Cows generally steady with last week's close, but some good cows brought to 50c higher. Several good grass steers 20.75-25.00. Latter rec'd high. Common to medium grade 15.00-18.00; good heifers up to 20.00; common to medium grades 13.50-17.50; medium to good beef cows 14.50-17.00; canner and cutter cows largely 9.00-12.00; common to good sausage bulls 12.00-15.00; asking up to 17.00 for good beef bulls. Several lots medium to choice calves 20.00; few good to choice vealers 21.00. Some held higher.

PORTLAND PRODUCE Portland, Ore., Oct. 21 (AP)—Butter opened the week's trading on the Portland market today in an uncertain position with most traders unable to predict the future for the commodity in light of most decreasing and decline in values of other commodities. Prices, however, remained the same as last week's closing. Consumer demand for best quality, large eggs continued unchanged. Storage holdings were above those of a year ago.

Prices on dairy produce: Butter—Prices to retailers: Grade AA cartons, 88c; AA prints, 87c; A prints, 85-86c; A carton, 89-90c; B prints, 85-88c pound. One-fourth pound cubes, 1/2 cent higher.

Eggs—Prices to retailers: A large, 61-62c; AA medium, 59c; A medium, 58-59c; A small, 44c dozen.

To assure "pre-shrunk" houses, dealers and inspectors use a portable electric recorder, which tests wood before building for excess moisture content that would cause warping and sagging later on.

NOTICE TO CREDITORS NOTICE IS HEREBY GIVEN, that the undersigned has been appointed administrator of the Estate of Mathew F. Hall, deceased, by Hon. C. L. Allen, County Judge, and all persons having claims against said estate are required to present them duly verified to the undersigned at the office of De Armond, Goodrich & Foley, Bank of Bend Building, Bend, Oregon, within six months from the date of the first publication of this notice.

Dated and first published this 30th day of September, 1946. THOMAS F. HALL, Administrator. DE ARMOND, GOODRICH & FOLEY, Attorneys. 98-104-110-116-C

Great quantities of slag, one-time blast furnace "waste product," are made into mineral wool, an excellent fire-proofing and insulating material.

Cigar holders made of amber are said to have begun when amber was believed to be a charm against inhalation with the smoke of pestilences and infections.

Fights Talmadge

Georgia's Gene Talmadge and his State Democratic convention say that Rep. Helen Douglas Mankin, above, is not the Democratic Party's nominee for Congress from the Fifth District, but Mrs. Mankin says she is, and is carrying to the people her fight to be listed as a Democratic candidate in the November general election. Mrs. Mankin, certified as eligible by the Secretary of State, was recently ruled out of the running by the Talmadge-controlled state convention.

Idaho Orchardists Find DDT Sprays Do Trick

Moscow, Ida. (AP)—Nearly all of Idaho's orchardists have swung to the use of DDT sprays. Fruit growers and entomologists have discovered that the difference between the old lead arsenate sprays and new sprays shows up most in the quality of fruit on the trees. A dozen arsenate spray treatments still allowed codling moths to scar nearly half of an orchard's fruit. DDT-sprayed orchards that have taken only three treatments have shown practically no damage.

Pete, Smart Seagull, Lives Well Inland

Sebago, Me. (AP)—One of the smartest seagulls in Maine is a bird resident in this resort area have named Pete. Instead of battling for a living with the thousands of gulls along the seacoast, Pete has come 30 miles inland and makes his home on big Sebago lake. He keeps well-fed with little trouble by hanging around the smelt fishermen, who share their catches with him.
