

Nazi Physicians Are Accused Of New Atrocities

Chicago, Nov. 21 (AP)—Nazi physicians tried to transplant human legs and subjected innocent victims to sterilizing doses of X-rays, the Journal of the American Medical Association reported today.

An article on the brutalities of Nazi doctors declared some of the experiments were sadistic and were performed by pseudo-scientists and untrained personnel without adequate reason.

Twenty-three Nazi physicians will go on trial Dec. 5 at Nuremberg, Germany, charged with the crime of having conducted experiments on human beings resulting in innumerable deaths.

Represents A.M.A.

The A.M.A. article was based upon a report by Dr. A. C. Ivy, vice-president of the University of Illinois, who had been picked to represent the association in an investigation of these acts.

An attempt was made by the Nazi physicians to increase the rate of reproduction of the German people through multiple ovulation and conception, the report said.

"Indecencies characterized these experiments," the article said.

"Studies were made to ascertain how a population could be sterilized without their knowledge, so that the sterilization would be accomplished without the fact becoming available for propaganda by enemies of the Reich."

Men, Women Exposed

"One method under study was to place the dried juice of a plant in the food of the population. Another was to expose men and women to a dose of X-rays while they were filling out government forms."

"A third method consisted in injecting a sterilizing agent during the course of a routine physical examination of the women of the population."

"Attempts were made to transplant legs and other organs which animal experimentation has shown to be impracticable. In one instance, a piece of 'hair-growing skin' was transplanted to the nose of a Jewess," the A.M.A. article said.

Bullets Studied

The lethal effects of poisoned bullets were studied to determine how long after a person was shot the disease would become apparent, and how long it would be before he died.

The Nazi physicians shortened arms and legs of human beings by cutting out sections of their bones to see how much bone might be removed without hampering normal movement, the journal article said.

One series of murders, the article said, was done to provide skeletons for a museum.

COMMITTEE TO MEET

Salem, Ore., Nov. 21 (AP)—The 10-man interim committee appointed to consider changes in legislative procedure will meet here tomorrow, State senator Howard C. Belton, acting governor, said today.

Political Prophet

Peter Edison, NEA Service Washington correspondent, picked the winners with racing form accuracy in Newsweek's pre-election poll of 50 top political writers. He forecast a Republican gain of 52 seats in the House and 11 in the Senate. The actual gain was 34 in the House and 12 in the Senate. Edison tied for first with Mark Foote of the Booth Newspapers, who predicted gains of 49 and 12.

Labor-Industry Courts Advocated

Portland, Ore., Nov. 21 (AP)—Establishment of labor-industry appeal courts for settlement of labor disputes was advocated in a resolution adopted late Wednesday by the national grange, in 80th annual convention here.

The resolution, while recognizing the right of labor to organize, urged that such courts have sufficient authority to act and that they be clothed with federal status.

Before coming up for appeal in the courts, disputes would go before a joint labor-industry-agricultural conference, according to the resolution's proposal. Also proposed was a 30-day "cooling-off" period after decision by such a court and that the courts be empowered to "order state or federal seizure and operation of a plant pending settlement in cases of strikes or lockouts endangering public health or safety."

Another resolution, acknowledging need for an end to most OPA controls, advocated that some existing federal agency take over rent and housing controls in states where legislation is unequal to coping with housing shortages.

100 FACE WATER LOSS

Salem, Ore., Nov. 21 (AP)—The city of Salem today served notice that it will cut off the water supply to 100 residences using city water outside the city limits. The order takes effect Jan. 1.

The total cost of the atomic project to America was about \$2,000,000,000; another industrial nation should be able to duplicate the result for \$500,000,000 or less because they can avoid our costly experimenting.

Florida Jungle Scene Of Search

Fort Pierce, Fla., Nov. 21 (AP)—Heavily-armed police today stalked the deep, jungle-like forest for a fugitive believed to be J. P. Ellis, 24-year-old Warren, Ore., soldier who has been AWOL from Camp Hood, Tex., since August.

Police believed it likely that Ellis, who was hit in the chest during a gun battle with police during the pre-dawn hours Tuesday, was lying dead in the woods somewhere between here and Vero Beach.

A blood marked trail leading to the woods supported the police view.

Companion Sought

Meanwhile, army authorities at Camp Hood advised police that Ellis' companion, Edward Mariega, 19, of Milwaukee, Wis., also was listed as AWOL from the military reservation since August.

Police took Mariega into custody during the gun battle Tuesday after the pair had stolen a car in Vero Beach.

A posse of 75 policemen began the search for the youths Monday after they stole a police car and abducted two Fort Pierce policemen who were attempting to bring them to headquarters for questioning.

EDDIE, IDA OVERPAY

Washington, Nov. 21 (AP)—Comedian Eddie Cantor and his wife, Ida, have been refunded a total of more than \$100,000 by the government because they overpaid income taxes in 1945.

The bureau of internal revenue said Cantor's refund was \$52,280.13. His wife's was \$51,759.59.

PASCO BRIDE KILLED

Pasco, Wash., Nov. 21 (AP)—Mrs. Virgel Buell, 25, a bride of three days, was killed yesterday when an automobile she was driving plunged off the highway near Eltopia, Wash., near here.

Veteran Pushes Stop Button, Causes Crash

Chicago, Nov. 21 (AP)—A veteran whose objections to walking prompted him to push an emergency stop button resulting in the collision of two trains and minor injuries to 40 persons, today blamed battle wounds for his action.

The veteran, Edward Pokropinski, 22, boarded an express instead of a local Illinois Central suburban train yesterday afternoon and pushed the emergency button when he noticed the train pass his station. The train immediately halted and was struck from the rear by a south shore suburban express.

Pokropinski told police his toes had been shot off in Italy, and that he became angry when he realized he was on the wrong train and would have to walk back several blocks to his station.

Thirty-seven of the passengers were treated at hospitals and released. The others were given first aid.
