

Wallace Expected To 'Pay' Truman; Backed by Reds

By Lyle C. Wilson
(United Press Staff Correspondent)

Washington, Nov. 25 (UP)—It is beginning to look like Henry A. Wallace has decided that about next November would be the right time to pay off President Truman for booting him out of the cabinet. The communist party is all set to aid Wallace in that chore. Wallace is talking third party louder than ever. He has been around too long to think he or a third party could win much of anything in 1948. Wallace would look to 1952 for more positive results. But a third party movement next year surely could sink President Truman if it got a few breaks. One of those breaks came this month and was scarcely remarked.

Rump Slate Strong

That was in Chicago where a rump slate of candidates for judicial office was entered in the Nov. 4 election and shell-shocked Illinois politicians by getting 113,000 citizens to vote the rump ticket straight. The slate was in opposition to a coalition ticket chosen by the democratic and republican organizations. The coalition candidates were to have been unopposed until Professor Homer F. Carey of Northwestern university organized the so-called progressive slate of candidates. Carey's ticket won better than 16 per cent of the total vote cast and probably has qualified as a party entitled to be on the ballot in the primaries and in the presidential election next year.

Not Communists

It is not suggested that Carey or the Carey slate of candidates are for or against Wallace nor, of course, that they are communists. But they now control the makings of a third party organization in Illinois and the communists will do what they can to kidnap it.

"The Worker," New York's Sunday communist newspaper, revealed what the comrades have in mind in an editorial stating that the old line parties are beginning to worry about third party developments.

If uneasiness is beginning to develop because of the third party threat led by Wallace and sparked by the communists, it is among democrats, not republicans. Any left wing movement of that kind would draw votes from what used to be the Roosevelt new deal-democratic organization.

Makes 4000-Mile Mercy Flight Alone

Chubby, 16-month-old Maurits H. Van Eck is pictured in New York after flying alone from his Amsterdam, Holland, home, en route to Philadelphia for a delicate operation. He swallowed some paint flakes which lodged in his windpipe and lungs. There were no medical instruments in the Netherlands to remove the slivers, so the 4000-mile mercy flight was arranged. Holding Maurits is a family friend, Dr. H. P. Laquer, who accompanied the boy to Jackson Clinic of Temple University.

Ten Treasure Seekers Plan Search for Gold on Island

By Loyd Bulmer
(United Press Staff Correspondent)

Vancouver, B. C., Nov. 22 — Shades of Captain Kidd! A ghost hunting pirate treasure.

But a party of ten live treasure seekers and one ghost will start out shortly on a trip to Cocos island in the Caribbean sea to search for hordes, worth perhaps, as much as \$100,000,000. The biggest single cache is called the "Loot of Lima" and reputed to be worth a cool \$50,000,000.

The ghost arrived with the party about four months ago, and manifests himself by running footsteps on the deck of the ship, and opening doors mysteriously. The spirit has been fondly nicknamed "Mortimer" and on Cocos island, uninhabited by humans but supposedly crowded by disembodied entities, "Mortimer" will be made to earn his keep.

Three Vancouver brothers, Hollis, Joe and Harry O'Hannon lead the expedition, and included in the party are Tin Egan, and a second Californian who prefers to remain anonymous. The expedition plans to leave Newport, California, early in January. Their boat, the "Dwyn Wen," is now moored at Newport undergoing repairs.

Data in the expedition include a map of the Cocos island area, showing the spot where the horde is buried. But the charter deliberately put erroneous bearings on the veil, keeping the corrections in his head.

In case the map proves inaccurate, as the brothers seem to think it will, dynamite and a metalophone are being taken along. The metalophone is a device similar to mine-finders used by the army to locate buried landmines.

Pension Lowered, Physician Killed

Ottawa, Nov. 25 (UP)—A veteran of the first world war walked into the offices of the department of veterans affairs here today, shot to death a physician he believed had caused his pension to be reduced, and then killed himself.

The veteran, identified by police as Harry Page, shot Dr. R. M. Bowie three times, and then fired one bullet from his revolver into his own head, falling dead beside his victim as other officials of the veterans department rushed into the room.

Police said Page believed Bowie, by ordering a re-examination of the veteran, had caused his pension to be reduced.

Narcotics Agents Seek Masey Aides

New York, Nov. 25 (UP)—Federal narcotics agents, aided by descriptions from airlines officials, searched today for the two men who accompanied Ralph Masey, 46, to La Guardia airport Sunday when he took off for San Diego with \$3,000,000 worth of heroin in his luggage.

Masey's death aboard the airliner at Los Angeles revealed what James C. Ryan, acting district superintendent of the narcotics bureau, described as an international drug smuggling ring.

The men who took Masey to the airport and were seen giving him last minute instructions were believed to be the first link toward finding the entire gang.

Ryan said Masey had a police record as a drug operator and had been sentenced to the federal penitentiary at Atlanta twice on narcotics charges.
