

Swiss Untouched By War, Give Freely to Others

Zurich (AP)—Switzerland, with only 4,000,000 inhabitants, has given 1,000,000,000 francs (about \$250,000,000) to aid war victims throughout the world in the eight-year period 1940-1948, an official survey revealed.

Half the sum came from state funds and the remainder was contributed by private individuals.

The generous work, regarded by many Swiss as a sort of conscience-payment in gratitude for the fact that their neutral country was spared direct war damage, still goes on.

It is currently under the aegis of the Swiss "Europahilfe" (Aid to Europe), successor of the wartime "Don Suisse" federating more than 100 public and private charitable organizations. Its principal emphasis is on aid to children, through UNICEF and other organizations.

About \$46 Per Head

The 1,183,190,000 francs distributed to war victims during the eight-year period represents an outlay of 265 francs (about \$46) for every Swiss citizen.

The official total includes government contributions of 153,000,000 francs to the "Don Suisse," 120,000,000 for civilian refugees, 38,000,000 in free transportation for charitable shipments, and 213,000,000 advanced for military internees.

Special collections produced 135,000,000 francs for the Swiss Red Cross and more than 51,000,000 francs for the "Don Suisse," and a total of 78,000,000 for various special charities such as the Pestalozzi Town for war-victim children, the Furniture for England Fund, and numerous civic sponsorships such as "Zurich Helps Vienna."

Also included in the total were 76,000,000 francs for the International Refugee Organization and its predecessors, 30,000,000 for the International Red Cross, and an estimated 250,000,000 francs in individual gifts and charities (food packages, vacations in Switzerland for war-victim children, etc.)

Not yet included was the sum of 250,000,000 francs which Switzerland will contribute to European reconstruction under the Washington agreement.

The survey issued in Bern in connection with an official "thank-you" from UNICEF for Swiss help, pointed out that much of Switzerland's aid program could not be estimated in financial terms.

It said, for example, that one of the most valuable Swiss contributions to UNICEF consisted in providing special training for physicians and other experts from war-ravaged countries, the ultimate value of which ranged far beyond its actual physical cost.

DOG OWNERS CITED

Five wandering dogs gave Bend owners a bad time this week as local police invoked the "at large" ordinance, and cited owners into court. Three who forfeited \$5 bail were Mrs. Norland Monical, 420 Delaware; L. D. Nicholson, 62 Canal street, and W. C. Burrell, 1827 West Seventh.

Marian Gilpin, 1224 Baltimore, on dog at large charges, received a \$5 suspended fine. The hearing for Betty Kness, 1946 Aubrey road, has not come up, but she deposited \$5 bail Thursday.

Wooden Legs Got Him Home

Weirton, W. Va. (AP)—John Karo is home in Parkersburg, W. Va., but it took a little help. The wooden legs that he made for himself some 40 years ago finally gave out on him.

The octogenarian, who has no family, has roamed all over the country on his home-made legs. He has even wandered across the British Isles, but he wants to spend his last days at home.

As the weary old man crossed the bridge at Steubenville, Ohio, he missed a turn and headed for Weirton instead of Parkersburg along Route 2. Wobbling along the road, he was nearly struck twice by motorists, who notified police of Karo's whereabouts and condition.

Sheriffs in Action

The Hancock county sheriff telephoned Sheriff Hogg of Brooke county and asked for a deputy to meet him and Karo in Follansbee, W. Va.

From Follansbee, the "Parkersburg Traveller" was taken to Wheeling by an Ohio county deputy. At Wheeling, he was fed and given a bus ticket to Parkersburg. The "pony express" had done its job.

During the ride through Ohio county, the octogenarian was reluctant to talk about his past.

Frozen in Blizzard

Indicating his wooden legs, he said, "I froze the good ones off in the big blizzard of 1909 in Mon-

Famous Nursery In 2nd Century

Westfield, Mass. (AP)—One of the nation's oldest nurseries is starting its second century of plant, shrub and tree raising.

Shipments from the Adams Nursery, Inc., across go to every state in the nation and to several foreign countries. In its first 100 years, the nursery constantly has expanded and thrice shifted its location.

Its founder, John Adams, started with a modest nursery at Portland, Me., during the "gold rush" year of 1849. Just 18 years later the nursery was moved to Springfield and finally in 1912 to its present location, a 200-acre property in this community.

"Made these I got on myself," he confided. "Carved them out of white willow. White willow's the best material for store legs. Better than that plastic and aluminum stuff they're using."

Karo admitted to better days. "Was a machinist for the railroads. Worked on most of them. Now I have to walk, but I can't walk much further. Guess it's time to go back after all. None of my people left, though. Only three second cousins."
