

Big Three Seek German Place In Federation

By J. J. Meehan
(United Press Staff Correspondent)

Frankfurt (U.P.)—Germany, soon may be accepted as a member of the proposed Federation of Europe, possibly now near realization after centuries of dreams.

Officials of two major Western nations, and a leading statesman of a third, have proposed that the budding republic of West Germany be accepted by the rest of democratic Europe.

Winston Churchill has taken the lead by asserting that all Germany outside the Russian zone of occupation be accepted by the Council of Europe within the next few months. Churchill made his statement at the council meetings in the French city of Strasbourg.

Doctor Sees Long Life Span Ahead

Cleveland (U.P.)—A Cleveland doctor has predicted that all infectious diseases will be eliminated "in the near future," and after that the normal life span of 64 years will rise to about 120 years.

Dr. Morris Schaeffer, director of the contagious disease division of City hospital, said, "Elimination of infectious diseases is on the way through specific drugs such as penicillin, streptomycin, aureomycin and other anti-biotic drugs now being worked."

He added, "At the same time, new immunizing procedures, such as already practically have eliminated smallpox and diphtheria, will help in this process, first probably with yellow fever, and then possibly with polio."

"Both of these things tie in with lengthening the life span. There is no reason the life span cannot be raised to at least 120 years. Not in our lifetime, but in the not too distant future, either."

Dr. Schaeffer said, "Infectious diseases may contribute to the pointed to certain difficulties so long as the allies control Germany's foreign affairs."

speed of the aging process . . . once they are eliminated, man's life span will be longer. Also, when they are eliminated, medical research can turn its full attention to the causes of the aging process, which will speed up prevention of early death.

RIDES THE FALLS
Sandpoint, Ida. (U.P.)—Duanne Davis wasn't in a barrel nor was he seeking publicity when he was swept over the pounding falls of Lightning creek near here. Davis lost his footing on the steep bank of the creek, tumbled in and rode headfirst over one of the falls. Struggling vainly, he kept on going and was washed over the second and larger falls. He was finally near enough to shore to clamber out, very tired.

The New WD TRACTOR with POWER ADJUSTED Wheel Treads

Wheel treads can be adjusted instantly to desired row spacing with engine power.

5-WAY HYDRAULIC CONTROL
A single touch control lever at steering wheel answers every command of the operator in controlling implements.

TWO-CLUTCH POWER CONTROL SYSTEM
Tractor may be stopped and started without interrupting power-takeoff or hydraulic system.

17 NEW FEATURES INCLUDE:
New light-pressure foot brakes; hydraulic shock absorber seat; easier steering; new low-pitch muffler; ASAE swinging drawbar.
