

Hungary Scraps Friendship Pact With Yugoslavia

Budapest, Hungary, Sept. 30 (AP)—Hungary scrapped its friendship pact with Yugoslavia today, accusing Marshal Tito's regime of defaming the treaty and plotting to overthrow the Hungarian communist government.

The Hungarian government formally denounced the treaty of friendship and mutual assistance 24 hours after a similar action by Russia. The Budapest move against the Yugoslavs was in line with predictions that the soviet action would set off a chain reaction among the cominform countries.

Foreign minister Guylla Kallai handed the formal note nullifying the treaty to Yugoslav Minister Jura Jovanovic at noon. The note said the recent trial in Budapest of Lazo Rajk, former foreign minister and No. 2 Hungarian communist, proved that Tito's regime organized a plot to overthrow the communist government of Hungary.

Relations between Yugoslavia and Hungary have become steadily worse since the trial of Rajk and seven co-defendants on charges of treason and other crimes against the state. Rajk and two others were sentenced to death. One of the keystone charges was that Rajk plotted with agents of Tito and of the United States to topple the Budapest government and seize power.

Today's Hungarian note said the trial proved that Gen. Alexander Rankovic, Yugoslav interior minister, came to Hungary illegally and negotiated secretly with Rajk.

It charged further that Yugoslavia arbitrarily expelled members of the Hungarian legation to Belgrade. The Hungarian envoy, together with the Polish representative, left Yugoslavia yesterday.

3 Stories Sold By Young Author

Redmond, Sept. 30 (Special)—Keith (Bud) Henderson, a former student of RUHS, received a check from the Writer's Digest for \$704 for three short stories which he submitted to the agency in August. The stories are of mood, with the surprise ending typical of short stories today.

Keith studied writing under the instruction of Mrs. Maude Lee, creative writing and library science teacher at Redmond Union high school for three years. He wrote during the summer and revised, with Mrs. Lee's help, the stories which he sold.

He was a member of the "Bud Blossoms" staff in 1948, and contributed to the three books published by the class.

He is attending the Portland School of Music in Portland and working on his writing as a hobby.

Keith is the 18-year-old son of Mr. and Mrs. John Henderson of Redmond.

Most of the Brussels sprouts crop grown in America is produced on Long Island, New York.

HEROES ARE MADE—NOT BORN

Prineville Group Sending Letters On Celebration

Prineville, Sept. 30 — Letters from Otto N. Hoppes, president of the Central Oregon chamber of commerce, were being forwarded today to county officials and chambers of commerce as far away as Boise, Idaho, announcing plans for a celebration set for Sunday, November 13, at the Mill creek bridge. The celebration will commemorate completion of the Warm Springs highway.

Hoppes emphasized that the new road will bring Portland and central Oregon 32.7 miles closer, and give all of the communities an opportunity to share in the savings of transportation costs.

Hoppes asked that all groups send representatives to a luncheon, scheduled for 1 p.m. on Sunday, October 16, at Timberline lodge, at which it is proposed to agree on details of the program at the ceremonies, which will be held at the bridge spanning the spectacular and deep Mill creek gorge in the Warm Springs Indian reservation. He asked that all organizations receiving the announcements inform the secretary of the Central Oregon chamber by October 10, as to the number it will have present for the luncheon of preparation at Timberline the following Sunday.

Hoppes said assurances have been given that Oregon's governor, Douglas McKay, will be present to join the state highway commission members and Highway engineer R. H. Baldock in the

Ochoco Project Has Night Shift

Prineville, Sept. 30 — The Dragline Rentals Co. of Long Beach, Calif., awarded a \$573,545.25 contract by the U. S. bureau of reclamation for rehabilitation of the Ochoco Irrigation district dam, has installed electric floodlights and is now operating a day and night shift, each of 10 hours' duration.

The Long Beach concern started work on the project of reinforcing and otherwise improving the 30-year-old dam on July 1. The contract provided that the rehabilitation should be completed within 500 days. Progress, however, has been far faster than anticipated, and Roscoe Murphy, superintendent, says it is now indicated that the job will be done before Christmas.

Gates will be closed in January to conserve the watershed run-off for 1950 irrigation.

FACULTY ENTERTAINED

Prineville, Sept. 30 — Mr. and Mrs. B. B. Boyce were hosts one evening the past week to all members of the families of the Crook county high school faculty at a "get acquainted" party at their home here. Mrs. Boyce is dean of students at the high school.

celebration ceremonies. He suggested to the chambers of commerce of Boise, Nampa, Weiser and Caldwell, Idaho, that they prevail upon Governor Robbins to head a delegation of the Snake river country of the Gem state.

Bend Firemen Take Training

James L. Shiek and Ivan Murphy returned home last week following completion of the local instructors' school conducted by the Oregon Fire Chiefs' association in cooperation with the state department of vocational education and the state fire marshal's department, in Klamath Falls from September 12 to September 17.

Shiek and Murphy were selected by the local fire department to take this specialized training intended to qualify them to instruct the other members of the Bend fire department during the coming year.

The Oregon fire department training program was established in 1947 to assist the various fire departments of the state to improve methods and to develop proficiency in fire fighting with the ultimate object of reducing fire losses. A course of training consisting of 49 separate lessons has been developed and the participating departments will conduct one three-hour lesson a week until the course is completed. The state vocational education department and the state fire marshal's department have employed four traveling instructors whose job it is to assist, advise, and guide the efforts of the local instructors in extending the training to all members of the fire department.

The traveling instructor for this area is Robert English, who will visit the Bend fire department not less often than once each month and will work with Shiek and Murphy on the development of the program in Bend.

Eighty-seven fire departments comprising a total of more than 2700 men are participating at the present time in this Oregon fire department training program.

In the United States there are approximately three licensed drivers for every two automobiles.

Convalescent Home Burns, 7 Lives Taken

Kansas City, Mo., Sept. 30 (AP)—A convalescent home occupied mostly by old-age pensioners became a death-trap for seven of 15 occupants today when flames fanned through the two-story frame structure.

Five of the seven victims suffocated and two others were burned to death. At least four more persons were hospitalized with minor burns and shock and exposure.

Mrs. Ola Jones, a neighbor said she first became aware of the fire when Mrs. Aurora Bayse, owner of the house, ran into the yard screaming for help.

Neighbor Rescues 2 John Paulsen, a next-door neighbor, saved two of the people from the flames.

Paulsen told firemen he pulled the two people from the first floor of the house but was unable to get to the second floor, where all of the victims died.

"The heat was unbearable," he said. Another neighbor, Miss Helen Mitchell, 20, said the sight of women scream and old folk running from the smoking structure was the "most pitiful sight I have ever witnessed. I can still hear the screams of those who died."

Firemen who reached the house within a few minutes after the fire began said the blaze was concentrated in the center of the building. Smoke made rescue impossible, they said.

BETTER ROADS FORESEEN

Akron, O., (AP)—Firestone, in conjunction with the Ohio department of highways, has laid an experimental road to test a new type of asphalt. Powdered rubber has been added to the regular asphalt mixture. Firestone officials said the mixture would not cause as much wear on automobile tires, and will allow quicker stops.

Indians Restricted On Game Hunting

Lander, Wyo. (AP)—Even the Indians need a permit to hunt big game now.

For the first time, the Shoshone and Arapahoe tribes on the Wind River reservation are regulating their hunting to conserve big game resources.

The tribes last year established a fish and game committee to draw up a big game code and set up a plan of operation. The code closed the hunting of the scarcer species of big game animals — moose, bighorn sheep and antelope — on the reservation.

The code further set a limit of one bull elk and one buck deer per hunter, and required all persons hunting to have a tribal permit, issued without charge.

PROGENY CARRIES ON

Windsor, Vt. (AP)—More than 150 descendants of Justin Morgan, a bay stallion that died over a century and a half ago, were entered in the annual National Morgan horse show here.

Contented Pigeons Decide Simple Life Is Best

Adelaide, Australia (AP)—Parachina isn't much of a place—population of five, 312 miles from Adelaide, falling down pub, leaning-over warehouse. But seven of 12,000 racing pigeons taken there for a race to Adelaide think it's good enough for them.

Cooling contentedly as the other 11,993 took off, they settled down under the warehouse. From the look of things, they are going to become permanent Parachinians.

Big 400 lb. Meat Cap. Home Freezer

A General Electric Home Freezer is a food bank that will pay you a handsome rate of interest! This is how: Instead of paying a high price for a sliver of steak or a patty of hamburger every day — you buy only when you get a "break" on meat prices — as during a sale! You buy your fruits and vegetables in season when prices are lowest, and quality highest. Then you just bank your food in your General Electric Home Freezer and enjoy it day after day, when most other folks have to pay high prices for the same food. You'll be amazed how your investment pays off for you when you own a General Electric Home Freezer! And imagine the convenience of having one right in your home! Why not stop in to see us?
