Czech Clergymen Pledge Loyalty

Prague, Czechoslovakia, Jan. 21 (AP)—The official news agency reported today that Czech clergymen, including Catholic priests, had taken oaths of loyalty to the communist government.

Catholic sources competent to comment on the agency report were not available immediately. A Protestant source said yesterday that Lutheran pastors had received orders to go to their regional national committees and take the loyalty oath.

The loyalty oath was one of the main points of dispute in the months-long struggle between the communist government and the Roman Catholic church in Czechoslovakia. Czech bishops finally agreed that the priests could take the oath if they added the reservation "provided it does not conflict with the laws of God, the church or the natural rights of man."

A high source said the priests could make the reservation secretly to themselves "so they will be able to keep out of trouble." The source added that "our job now is to keep our priests free to enable them to continue their religious duties."

Corporation Tax Increase Sought By Truman, Report

Washington, Jan. 21 (AP)—President Truman plans to ask congress to cut excise taxes by about \$750,000,000 a year but to more than make up this loss through higher corporation taxes, congressional sources said today.

Mr. Truman was understood to be planning to send his tax recommendations to congress on Monday. Most of the president's proposals will be in general terms, it was said, with the treasury scheduled to spell out the details at subsequent congressional hearings.

Democratic members of the tax framing house ways and means committee were given a preview of Mr. Truman's tax message at a White House conference yesterday. While they agreed among themselves that they would not discuss the recommendations publicly, it was reported that Mr. Truman will propose a \$1,000,000,000 boost in corporation taxes, higher estate and gift taxes, plugging of some tax loopholes, and the \$750,000,000 reduction in excises.

Mr. Truman, it was said, has no present intention of asking for higher taxes on top-bracket individual incomes, as he did a year ago.
