### New Record Set In Advertising

New York, April 21 (AP)—Advertisers spent more money last year for newspaper space than ever before, the American Newspaper Publishers association said today.

It was the first time since 1942 that advertisers spent more money on newspaper space than on magazine space.

Advertising revenue for newspapers swelled to \$445,015,000 in 1949, 14.3 per cent over 1948 revenue.

Harold S. Barnes, director of the ANPA bureau of advertising, said figures of the publishers in information bureau showed that general and farm magazine total revenue fell from \$458,677,139 in 1948 to \$440,795,045 last year.

Total revenue of radio and television in 1949 was \$376,400,329 according to the best available data, Barnes said.

### Slash in Excise Taxes Favored

Washington, April 21 (AP)—The house ways and means committee voted today to cut federal excise taxes on furs, jewelry, cosmetics and other items \$250,000,000.

This brought the total excise tax cuts approved by the committee in the last two days to about \$335,000,000.

This is \$145,000,000 more than President Truman recommended that these particular taxes be reduced.

The committee voted to reduce the present 20 per cent tax on jewelry to 10 per cent. Watches costing less than \$65 and alarm clocks costing less than \$5 would be exempt altogether, under the committee-approved excise tax schedule.

Furs would be reduced from their present 20 per cent tax to 10 per cent, and most toilet preparations from 20 per cent to 10 per cent.

### MINE VIOLENCE FLARES

Morgantown, W. Va., April 21 (AP)—The owner of the non-union Powell Coal Co. mine and seven of his employees faced hearings today after they fought off a band of pickets with shotguns and rifles.

Eleven persons, 10 of them pickets, were wounded in the outbreak of gunfire yesterday. Only one required hospitalization.

Monongalia county sheriff, Mike Gill said the unarmed pickets were making their second call at the mine within two days in an attempt to force owner Asa Province to sign a union agreement.

### Juror in Bridges Trial Threatened

San Francisco, April 21 (AP)—Police said today they are investigating threats of bodily harm against Morris L. Wolfsohn, a member of the federal court jury which convicted CIO longshore chief Harry Bridges.

Disclosure of the threats came when Wolfsohn, a retired San Francisco furrier, appeared to Mayor Elmer Robinson for special protection.

He said he has been harassed by a series of telephone calls, the latest of which was received at 3 p.m. yesterday warning him "you better not say anything because we'll get you."

Wolfsohn said the warnings began the day after the trial ended. He was accosted on the street by a burly stranger.

"We'll take care of you," Wolfsohn said the stranger warned. A few days later a second stranger repeated a similar warning, he said.

### Dr. Sander Faces New Troubles

Manchester, N.H., April 21 (AP)—Dr. Hermann N. Sander retreated to the role of "gentleman farmer" today after three more blows to his medical career in the wake of his acquittal as a "mercy slayer" virtually shattered his prestige as a physician.

Because his license was revoked by the New Hampshire board of registration in medicine, the 41-year-old Candia physician was dropped from the staff of the Hillsborough county general hospital at Goffstown and the Elliott hospital here last night.

At the same time, Dr. Mac F. Cahal, general counsel and executive secretary of the American Academy of General Practice, announced at Kansas City, Mo., that Sander's membership would have to be suspended because he had lost his license.

All three organizations said Sander would not automatically be reinstated if his license were returned at the end of the two-month period when the state board said he could apply for a license reinstatement hearing. Sander would have to re-apply for membership.

Thus stripped of his physician's privileges, Sander changed his white coat for overalls and plowed a plot of ground near his Candia home preparatory to spring planting.

His suspension from the hospital at Goffstown was announced by Dr. Harold I. L. Loverud, president of the hospital board. It was at this same hospital where Sander's actions in the death last Dec. 4 of Mrs. Abbie C. Borroto, 59, an incurable cancer patient, precipitated his trial.

### Four-State Bus Strike Averted

Portland, April 21 (AP)—A four-state bus strike that was to have begun this morning on the Union Pacific's overland Greyhound lines was put off indefinitely last night as federal mediator I. J. Pickett announced tentative agreement between the company and AFL Motor Coach Employees union members.

An estimated 250 drivers, ticket agents, and shopmen in Oregon, Washington, Idaho and northern Utah were involved in the threatened strike over 1950 contract negotiations. Later strike action would be contingent on whether union members accept or refuse the agreement, Pickett said.

The strike by union members would have started at 12:01 this morning. Details of the agreement cannot be released until union members have voted on them sometime in the near future, Pickett said.

Chief dispute in new contract negotiations was the union demand for a pension program to be partially financed by employee contributions, similar to those maintained on other Greyhound operations. The company had offered to pay for a \$50 monthly pension.

Other union demands centered on wages and working conditions.

### Big Haul Made By Bond Thief

Los Angeles, April 21 (AP)—A Los Angeles mortuary firm owner today reported theft of more than \$200,000 in negotiable and non-negotiable bonds from a vault in his home.

Mayor H. McKinley, who also heads an insurance company, told officers he discovered the loss when he examined the vault following a birthday party for himself and his daughter, Mary Beth, 7.

It was dinner table conversation which turned to talk of stocks and bonds which made him look into the vault, McKinley said. He said he remembered that he needed some bonds for a board meeting today and went to the vault.

Police said the vault which contained an inner safe had not been tampered nor explosives used. "Apparently someone who either knew the combination or worked by 'feel' pulled the job," officers said.

Included in the stolen bonds were industrial and government securities, McKinley said. The burglars, however, passed \$20,000 in cash which was in an envelope.

The exact amount stolen will not be known until an audit is made, McKinley said.

A burglar recently stole about a quarter of a million dollars worth of bonds from philosopher Will Durant. The thief was soon caught, however, and the bonds recovered.

### Truman Urges More Controls

Washington, April 21 (AP)—President Truman told mayors of 10 cities yesterday that a critical housing shortage still exists, and he wants extension of federal rent controls after June 30.

The mayors met with Mr. Truman at a conference arranged by Federal housing expediter Tighe E. Woods. Woods said the president told them that he still thinks controls are necessary.

Rent controls end June 30. There is little disposition in congress to extend them as at present.

After the meetings the mayors expressed themselves briefly this way:

Mayor William F. Devin of Seattle: "I told the president that in our town there was a definite surplus of higher bracket rental units of \$75 a month and up, but a shortage still exists in the lower brackets where controls are still needed."

Mayor C. A. Lockwood, State Game Director, State Game Commission, 1634 S.W. Alder St., P.O. Box 4136, Portland 8, Oregon, 115-116-117-C.
