DETROIT (UP)-An autopsy will be performed today to determine the cause of death of Siamese twin girls less than 34 hours after their birth.

The twins ,joined by a six-incistrip of flesh from the upper part of the breast bone to the abdomen, were born to Mrs. Richard Herring 27, by Caesarian section Sunday.

They died while physician sought to determine how many or gans they shared. Doctors said had separate stomachs but were shared the same heart, lungs and

Dr. Glen Hause, pediatrician in charge, said it was possible that their death resulted from lack of oxygen supplied by a shared set of lungs.
