Clark Gable Takes Bride

MINDEN, Nev. (UP)—A new "queen" reigned over Hollywood today — blonde actress Kay Williams.

Miss Williams became the fifth wife of Clark Gable, the gray-haired actor known as "the king" in a spur of the moment ceremony performed by a justice of the peace here Monday.

After the brief ceremony, the newlyweds left for a honeymoon at an undisclosed destination, possibly Gable's secluded cabin on the Nevada side of Lake Tahoe.

The marriage climaxed 13 years of friendship between the 54-year-old Gable and Miss Williams, 37, whose battles in court and otherwise with her former husband, millionaire playboy Adolph Spreckels II, made Hollywood history.

Gable and Miss Williams always insisted they had no intentions of marrying. However, anonymous tipsters had telephoned news agencies in the last two weeks that they might be wed soon.

They got their marriage license only minutes before appearing before Justice of the Peace Walter Fischer. They were accompanied by Mrs. Elizabeth Williams Neeser of Los Angeles and Mr. and Mrs. Albert S. Menasco of St. Helena, Calif.

WINS "PRIVATE WAR"—Charlton Heston was right. The movie star spent two years selling his studio on making "The Private War of Major Benson." The story of a stern Army officer's humorous struggles in running a boys' military school has proved a hit in preview.

How many voices can a telephone line carry at once? One of the reasons why long distance calls cost so little these days, is this: Telephone people have a way of putting a number of calls—up to sixteen, in fact—over a single pair of wires at the same time. (Large cables can carry hundreds of calls simultaneously.) And each voice is distinct and separate when heard at the other end. In this way, one pair of wires does the work of many. The name for this is the "Carrier System". And you can see how important it is. For, without it, hundreds of thousands of miles of extra telephone lines would be needed. Savings like this are a real help as we work to hold down the cost of your telephone service. Pacific Telephone.

MADRAS—Madras post office receipts for the fiscal year which ended June 30 recorded a climb of over \$1000 from the previous year, George Dee, postmaster, announced this week following tabulation of records.

The 1954-55 amount was \$29,332.06, compared with \$28,084.46 in the 1953-54 fiscal year, for a gain of \$1,247.62.

The total for the 1954 calendar year was \$31,823.56. Under postal regulations, an office must do \$40,000 in business during one year to gain first class rank. The local office is now about \$8000 below the goal.

Items going into the revenue total include postage stamps, box rental, printed stamped envelopes, second class postage, nonmetered postage, bulk mailing fees, and miscellaneous postal receipts.
