Statement of Policy

The first 50 years are the hardest . . .
 Commemorating our fiftieth anniversary we think it entirely fitting that we engage in a few moments of introspection.
 Hudson House was organized 50 years ago and at that time we set our standards of operation high enough to withstand the years. How well they have been maintained can best be determined by looking at the present. Our firm now distributes groceries through eight branches located in Oregon and Washington, including Albany, Roseburg, The Dalles, Bend, Longview, Portland, Forest Grove and Dundee.
 It shall be our endeavor in the coming years to continue to give the consumers of Hudson House Products the finest quality foods and the lowest possible price.
 To each of you with whom we have enjoyed so many years of association we humbly say "Thank you" and we shall look forward to serving you in the years ahead.

Modern Equipment for A Modern Business

Wholesale grocery houses in the Pacific Northwest have come and gone in the years since 1907. Fifty years ago Hudson House Inc. was organized and started a wholesale grocery distributing business. Each year has shown some progress until, now, we are one of the oldest firms supplying retail grocers in the states of Oregon and Washington. We attribute our continued growth to our steadfast dedication to the principles of better service year after year.

We Handle All The Nationally Advertised Food Products

We know that the consumption of locally grown produce and farm products is highly important to the economy of Central Oregon. That is why a good portion of our products over the years led to the construction in 1939 of a warehouse in Bend capable of storing 75 carloads of stock. From this supply Hudson House Quality Foods are distributed over the large Central Oregon Trading area. To maintain our outstanding service we employ between 18 and 20 people. We at Hudson House are proud of them and the place they occupy in the community.
