Congressmen set annual 10-day holiday

WASHINGTON (UPI)—The Senate, preparing for the Easter recess of Congress, was set today to approve a three-month extension of the emergency unemployment compensation program.

Final action on the jobless pay measure will allow the legislators to take their first break in the 80th Congress after 11 weeks of near-record work.

Senate passage would send the bill back to the House for swift transmittal to President Eisenhower before benefits expired April 1 for 405,000 idle workers.

The vote was due to trigger a rush of Senate and House members on their 10-day Easter recess. Although Congress does not begin its holiday officially until Thursday, leaders assured members there would be nothing to hold them after today—if the jobless bill passed.

Democrats, with a heavy majority in both houses of Congress, looked with pride on their legislative record to date.

Before taking off for Texas Monday night, Senate Democratic Leader Lyndon B. Johnson said it was a "rare" achievement for the pre-Easter period of any Congress.

The Senate has passed Hawaii statehood, a draft law extension, housing, airport construction, world bank expansion and area redevelopment bills and voted to liberalize its anti-filibuster rule.

The bills extending the draft for four years and granting statehood to Hawaii already have been signed into law by President Eisenhower. Other Senate - passed measures await House action.

Most first sessions of a Congress spend the initial two months getting out of committee, with very few measures being approved before Easter. But this year there has been unusual legislative speed.

MODERN TIMES NEW YORK (UPI)—The Board of Health revised its sanitary code Monday so that the health commissioner will no longer be required to:

Patrol the streets at night in search of dead horses.

Pull dead horses to the curb as a safety precaution.

Light warning lamps at the heads of dead horses.

Other Highlights Littering: The House Judiciary Committee recommended "do pass" to a bill making it a crime to litter about any public or private school building, community center or public park.

Parent Responsibility: A bill making parents liable up to \$250 for willful vandalism of their offspring 18 years old or younger received a favorable recommendation from the House Judiciary Committee by a 4-3 vote.

Medical Examiners: The Senate passed a bill allowing the state board of Medical Examiners to appoint its own attorney. The bill now goes to the House.

FINAL STOCKS

Advance today is ragged

NEW YORK (UPI) — Stocks scored a ragged advance today. Profit taking proved a tough hurdle all day with prices of many issues pared late in the session. The market generally finished well below its highs for the day. The individual feature of the session was American Agricultural Chemical, which ran up more than 8 at its high on a proposed stock split and dividend increase.

Chemicals were one of the strongest groups in the list. DuPont was up more than 4 at its best, holding most of the gain. Allied held most of its gain, which ran to 3.

American Motors was active and firm in a generally easier auto group. Nonferrous metals were firm.

Electronics issues were in demand. Zenith lost a good chunk of a 3/8 point gain on late realizing Texas Instruments, Hoffman Electronics, Siegler, and Beckman Instruments all ruled up around a point or more near the close.

Leading steels favored the downside with U.S. Steel off more than a point. Oils were mixed.

Rails and utilities were lower on balance.

Cuba decision urged by Morse

WASHINGTON (UPI) — Sen. Wayne Morse (D-Ore.) says now is the time for the State Department "to reach a new firm decision in regard to the Cuban situation and our official relations with (Cuban premier) Fidel Castro."

Morse noted that the American Society of Newspaper Editors had invited Castro to address its annual meeting in Washington next month and that Rep. Charles O. Porter, a fellow Oregon Democrat, has asked Castro to attend Oregon's Centennial Celebration.

Both invitations were issued without prior State Department or White House approval.

In a letter to Roy R. Rubottom, Jr., assistant secretary of state for Latin American affairs, Morse demanded "an unequivocal statement of policy...in regard to this problem."

He said the invitations could develop "into a rather delicate situation."

FIGHT CONTINUES

PORTLAND (UPI) — The West Coast Lumbermen's Association has been "holding its own" in its fight against attempts to limit entry of western lumber into some southern regions unless it meets certain moisture conditions.

This was reported to WCLA members here Tuesday night by Robert Mahaffay, general manager of the organization which is holding its 40th annual meeting.

Some southern areas are supporting legislation to limit the entry of the western lumber into southern pine regions, he said.

Indemnity fund bill is tabled

SALEM (UPI) — The House Judiciary Committee has tabled Senate bill 64 which would have provided for an indemnity fund by members of the Oregon State Bar to take care of any misappropriations or delinquencies by individual attorneys.

Committee members said the bill has had wide discussion and was endorsed by the State Bar in September.

However, they said it also has had considerable opposition from members of the bench and bar on grounds that it would encourage uncomplimentary complaints, that it is not sound principle to require indemnity attorneys to pay for losses occasioned by illegal acts of others, and that no such rule has been adopted in any other profession in Oregon.

Hoodoo bowl report issued

The Hoodoo Bowl ski area will be open Thursday through Sunday this week because of the college vacation, manager Ed Thurston reported today.

The area will go back on a Saturday and Sunday schedule next week with the Skyliners Club competing in the Jero Gillis Memorial ski race April 6 and 7.

Gillis, a great ski leader of youngsters in this area, was killed in a bus accident on Santiam pass.
