

## Stop-gap airport aid bill inked by Pres. Eisenhower

WASHINGTON (UPI)—President Eisenhower today signed a stop-gap bill to extend federal aid to airports for another two years at the present rate of 63 million dollars a year.

The measure was a watered-down compromise finally agreed to by the House and Senate in hopes of avoiding a presidential veto. Eisenhower last year vetoed a more far-reaching Democratic bill.

The final compromise included a House provision tightening restrictions against use of funds in the bill for cocktail lounges or similar terminal facilities not essential to the "safety, comfort and convenience" of air travelers.

Eisenhower in a statement on signing the bill took the position that the measure gives his administration sufficient discretion to withhold federal funds from all but safety projects or construction

needed for the "convenience or comfort" of persons using airports.

The measure prohibits commitment of federal money for parking lots, bars and lounges, night clubs, private clubs, garages and commercial offices.

"The bill is not as conclusive, however, with respect to those parts of airport buildings intended for any other use," the President said.

In his opinion federal money may be committed for construction of airport buildings if the federal aviation administrator determines that they are "essential for the safety, convenience or comfort of persons using airports for public aviation purposes."

The President who has favored withholding funds for construction of purely terminal buildings, said he felt the administration now had "very broad" discretion in administering the bill.

He said that if the bill had not provided wide discretion to the administrator, much of the money could have been forced into projects unrelated to safety.

The Senate originally passed a four-year 465-million dollar program. The House voted a 297-million dollar four-year bill.

## Exposition spotlight put on Bend

Bend was in the spotlight Saturday at the Oregon Centennial Exposition and International Trade Fair in Portland Saturday.

The occasion was Bend Day. Two performances were presented at the Timber Products pavilion by part of the cast of "Annie Get Your Gun," and the Moose square dancers. Bend residents who made the trip said that the announcement in Portland newspapers that the Mirror Pond Pageant court also took part in the program was in error. The princesses attended on the previous Saturday.

Taking part in the "Annie Get Your Gun" cast was Kathy Boardman, Landra Strother, Paul Beaulieu, Dennis Marvin and Dallas Quick, director. The Moose square dancers were under the direction of C. W. Pattee.

Homer Rainey, Ben Fanning, Mrs. Kay Bartolot and Robert Becker of the Bend Centennial group were among those who assisted in promoting Bend Day at the exposition and trade fair.

Most of the group returned in time for the Parade of Princesses here on Saturday night.

## U. S. sub watch made by Soviets, Japanese say

TOKYO (UPI)—The Soviet government has been using a fleet of small ships in the Pacific Ocean to watch the movements of U. S. nuclear-powered submarines, the Kyodo News Agency reported today.

The Japanese news agency said this was the consensus of Japanese government officials on the basis of more than a year's study of the mysterious movements of Soviet ships off the Japanese coast.

The Soviets, according to Kyodo's sources, are seriously disturbed by the fact that the United States already has five nuclear powered submarines—with three more on the way.

## Interest rate increase due

The United States National Bank of Portland will increase its rate of interest on savings accounts to 3 per cent per annum beginning July 1, 1959, according to E. C. Sammons, president.

This new savings rate, which will be compounded semi-annually, is effective at all of U. S. National's 70 statewide banking offices.

Sammons said the move is designed to encourage thrift and to provide Oregonians with an even greater incentive to save.

Sammons said the increased interest rate will provide approximately \$700,000 of added savings interest during the last half of this year for the more than 200,000 savings account customers at U. S. National offices throughout the state.

## Airliner called back to airport

DENVER (UPI)—A United Air Lines twin-engine Convair carrying 19 passengers was called back to Denver 10 minutes after taking off for Salt Lake City Sunday night for investigation of a bomb scare.

A search of the plane failed to disclose anything. The scare was the second in as many days at the Denver Airport.

Officials said the plane was held up about an hour.

**RED-FACED PATIENTS**  
LONDON (UPI)—The West Suffolk Federation of Women's Institute is asking the government to provide National Health Service doctors with soundproof walls. The institute says that at present the doctors' comments usually can be heard by everyone in the waiting room.

## Long winds up lazy week end at 'pea patch'

WINNFIELD, La. (UPI)—Gov. Earl K. Long wound up a lazy weekend in his "little pea patch" today, climbed into his air conditioned Cadillac with his psychiatrist, and headed back across the state to the motel at Covington he is using as a temporary capital.

Long announced Sunday he plans to divorce his wife of 27 years for getting him into a mental hospital. He also said he is going to fire at least one more official for helping his wife, Blanche.

Long was wearing a farmer's hat and sitting in the front seat with David Bell, his chauffeur, while the psychiatrist and state Sen. B. B. (Sixty) Rayburn, a crony, sat on the back seat.

Bell was administrator of veteran affairs until Long got excited and fired him last month.

Long took over the biggest part of the Covington motel last Friday for a temporary state capital after using his executive powers to get out of a nearby mental hospital, the third he has been in since May 30.

Long, 63, voluntarily submitted to the care of a team of psychiatrists after he regained his freedom and promised them to stay in the motel at least until Friday.

It will not be certain what time he will leave today on the 200-mile trip. He arrived late Saturday night at his tin-roofed, frame farm home in Winnfield. He calls it his "little pea patch."

Long announced his intentions to get a divorce to reporters on his back porch Sunday while his psychiatrist, Dr. Paul Pratt, tried to calm him down.

"She raised more hell than the man who fired the shot heard round the world," Long said of his wife.

"I've put up with her as long as I can and I'm going to get a divorce now. I'd have gotten a divorce long ago if I hadn't been in politics."

"She raised more hell than the man who fired the shot heard round the world," Long said of his wife.

"I've put up with her as long as I can and I'm going to get a divorce now. I'd have gotten a divorce long ago if I hadn't been in politics."

## Gromyko sees possible accord

MOSCOW (UPI)—Soviet Foreign Minister Andrei Gromyko said Sunday he still saw a possibility of success for the Geneva conference but he made it clear the West and not Russia must yield.

Gromyko, in a 15-page statement on the conference, maintained the stand he took at Geneva and gave no indication the Russians planned any concessions that would break the deadlock over Berlin, Germany or European security.

He said the first part of the conference—it is in a three-week adjournment—was useful because it pinpointed differences and attempts were made at bringing East and West closer together.

He said the United States, Britain and France actually planned the recess "beforehand, and they merely sought an excuse in order to announce it." The West said Gromyko had made further discussions hopeless by repeated "ultimatums." Gromyko denied he had issued any.

## Ban of film set aside

WASHINGTON (UPI)—The Supreme Court today set aside New York's ban of the film "Lady Chatterley's Lover." It said the state "struck at the very heart of constitutionally protected liberty."

"What New York has done... is to prevent the exhibition of a motion picture because that picture advocates an idea—that adultery under certain circumstances may be proper behavior," Justice Potter Stewart said for the court. "Yet the First Amendment basic guarantee is of freedom to advocate ideas."

The high court unanimously reversed a decision of the New York Court of Appeals upholding the ban.

The film was adapted from D.H. Lawrence's novel about Sir Clifford Chatterley, an English industrialist; his wife, Constance, and their gardener, Oliver Mellors.

Lady Chatterley has an affair with Mellors and at the end of the picture goes away to live with him.

## Blast kills three

INNOSHIMA, Japan (UPI)—A gas explosion in the tank of the Venezuelan tanker Easo Maracai-bo killed three Japanese workers at the Hitachi Shipbuilding Company's dockyards here today.

Save on your favorite hair-conditioner

## Inflation hits nickel cone

PORTLAND (UPI)—The 5-cent ice cream cone is the latest victim of inflation.

Kenneth M. Vincent, Oregon City, president of the Northwest Association of Retail Ice Cream Manufacturers says small cones will sell at 10 cents and large cones at 15 cents each starting Wednesday.

He said the boost was made necessary because of increasing costs, including milk, ice cream mix, chocolate, fruits and flavoring.

**CITATION ISSUED**  
Jerome Bain Warner, Route 1, Bend, posted \$17.50 bond Saturday on a charge of violating the basic rule, driving 40 miles in a 25-mile zone, according to Bend Police records.

## Papers publish despite strike

RENO (UPI)—The American Newspaper Guild today struck Reno Newspapers, Inc., but executives of the Reno Evening Gazette said they would publish a 12-page paper this afternoon.

Pickets were parading around the newspaper's plant at 5:30 a.m. There was no indication when the pickets would be called back.

Publisher Charles H. Stout declared in a formal statement "The Reno Evening Gazette and the Nevada State Journal will continue publication despite the strike against the two newspapers by the Reno Newspaper Guild."

## Redmond wins golf tourney

**Special to The Bulletin**  
REDMOND — Burns, John Day and the rules of geometry were defeated Sunday on the Juniper Golf Course. The match turned out to be a one sided triangle in a sports sense, thus: Redmond, 55½; Burns, 25½; John Day, 27.

Ray Crockett, Everett Reynolds and Gene Yates were the only six-point winners. They were all on the Juniper Club team.

Pinky Bergstrom, of Burns, and Earl Booth, of Redmond, were low scorers with 75s. Crockett's 78 was the only other score below 90.

The ladies of the Juniper Club provided sandwiches at the half-way stage of play, a buffet dinner afterwards. Redmond players were hosts for food and drinks.

## Clackamas river dam dedicated

ESTACADA (UPI)—The 25-million dollar Northfork dam on the Clackamas river three miles from here was formally dedicated Sunday with about 8,000 persons gathering for the official ceremonies and an aquatic show on the reservoir afterward.

The Portland General Electric Company project adds 54,000 kilowatts to the Northwest power pool.

Thomas W. Deizell, PGE chairman of the board, told the crowd the variable radius arch dam was "a monument to the multiple use of our natural resources." The dam, 207 feet high and only eight feet through at the crest, is reported to be the thinnest for its height in the world. Northfork is designed to "give" in the middle with the force of the river, thereby allowing firmer extension of its sides into the anchorages of the canyon wall.

Frank M. Warren, president of PGE, said Northfork was a "marvelous engineering feat" and paid tribute to the project's engineers and construction workers.
