### Congress gets Kennedy plan for education

WASHINGTON (UPI)—President Kennedy sent Congress today a controversy-laden education program which would authorize \$5.6 billion in federal grants and loans to build public schools, boost teachers' salaries and increase college opportunities.

Key provisions of the President's special message would: —Authorize federal grants of \$2.3 billion for public school construction and teachers' salaries for the next three years, with each state deciding how much of the money would go for each function. The money would equal a minimum of \$15 for every public school student "in average daily attendance."

—Establish a five-year program of state-administered scholarships for up to 212,500 "talented and needy" college students at an over-all federal cost of \$577.5 million. The average scholarship would be \$700; the maximum would be \$1,000. Colleges and universities would get \$350 a year additional for teaching each federal scholarship student. States would have to pass out the scholarships competitively "without regard to sex, race, creed or color."

—Extend the college housing loan program for five years at \$250 million annually, and provide \$300 million a year in loans for five years to help build college classrooms, laboratories, libraries and related academic facilities.

### U. S. shock expressed by Stevenson

UNITED NATIONS, N.Y. (UPI)—Six followers of slain Patrice Lumumba were executed after their deportation by Congo President Joseph Kasavubu into the Congo's violently anti-Lumumbist Kasai Province, Secretary-general Dag Hammarskjold told the Security Council today.

Soviet Ambassador Valerian A. Zorin charged that the Kasavubu government "is carrying out a campaign of systematic extermination of the national leaders of the Congo."

He put full blame on Hammarskjold and Belgium for support of the Congo regime of Kasavubu, secessionist leader Moise Tshombe and army strongman Maj. Gen. Joseph D. Mobutu. Zorin demanded the arrest of Tshombe and Mobutu.
