

DON'T SEND THEM AWAY

... let 'em work for us
a while longer

IT doesn't take a great **MANY** dollars to keep the wheels turning in a community like ours... but it does take dollars that are **CIRCULATING** in the local trade channels.

A GONE DOLLAR... gone to some other trade area... does not merely cost us \$1 of lost trade volume... instead, we lose the **UNTOLD** value of that

dollar's continued activity in our midst.

FOR every time a dollar turns over again in this community, it gives us another lift toward better job and business opportunities for all of us... better school, church, and other civic facilities... and more fine people as friends and neighbors and co-workers.

WE can get far more from every one of our dollars... in material and social benefits... if we keep them at home where they can work for us... instead of sending them away to start working for somebody else.

If we'll let them stick around longer, we can get a lot more work out of our dollars.

Make your dollars build your community...not somebody else's

**It Pays To Buy
In BEND**
