Oldsters have a chance to build a new political machine to outshadow Townsend

aging is building up another big political pressure group in the United States from which more is likely to be heard rather than less.

Anyone who remembers the Townsend old age pension plan that bloomed in the 1930s will have some idea of what oldsters can do when organized. The old folks fell for it with a whoop of delight. Headquarters was in Los Angeles.

Great sums of money accumulated there. Contributors, few of them young, showered down with their \$1 and \$2 bills and an occasional \$5. The plan held its own national political convention in 1936 in the great Cleveland hall just vacated by the Republicans, who had nominated Alf M. Landon for presi-

When the Rev. Gerald L. K. Smith ended his speech, which was an appeal for contributions, the old folks stormed the stage, filling hats and buckets with \$1 and \$2 bills.

The Townsend old age pension plan was a major factor in persuading Congress to enact Social Security legislation. That legislation disorganized but did not wholly quiet its benefac-

They kept the heat on Congress so that it has been customary since for Congress to regularly hike Social Security payments, usually in election years. All of that was nearly 30 years contest.

The politics of medical care for the ago. The old folk have not had much if any organization or leadership since Dr. Townsend disappeared.

The medicare dispute is changing that, Operating now in Washington at an address conveniently close to the U. S. Capitol where the medicare votes will be cast is the National Council of Senior Citizens. This organization representing the oldsters is committed to the Kennedy administration plan for medicare through Social Security,

Its political base could be enormous. It could be as great, for example, ments with Defense Secretary as is the political base of organized Robert S. McNamara and Kenlabor. Given organization locally and nationally, the old folk could become a Army's Nike Zeus anti-missile balance of power vote in many elec-

In that role, the elders could dic-In that role, the elders could dictate to political parties as organized Weekly auction labor or racial groups dictate, In 1955 more than 14 million persons aged 65 report issued there were in the United States just years or more, In March of 1960 this number had grown to 15.6 million.

The Statistical Abstract of the The Statistical Abstract of the United States says in 1959 there were tion Yard totaled 289, compared in this country 236,818 physicians; to 461 head last week. Fifty-eight 100,615 dentists; and a year before 460,000 registered nurses. The medical profession is well organized and better able than the larger numbers of the oldsters to get its story to the people.

But the old folk have the administration going for them in this political

Good name for future school in Bend

In some future year, possibly not too distant, another grade school will be built in Bend west of the Deschutes. Naturally an appropriate name will be

Wyeth Grade School? That might be a good suggestion. Nathaniel Wyeth was the first white man, so far as historians know, to visit the present site of Bend. With his trappers, he crossed the present Kenwood Grade School grounds late in 1834, to spend a stormy Christmas in his tent a short distance up the Deschutes river.

Awbrey Grade School? That also would be a good name. Marshall Awbrey, Mexican war veteran, was possibly the first white man to consider Bend as a home site. In the 'seventies of the last century he made camp west of the Deschutes in Bend, near the Harmon playfield location of the present. Then, when spring came, he planted a crop to raise some hay for his horses. The crop was frosted one bitterly cool May night and Awbrey moved downstream to the present Tumalo area.

But both Wyeth and Awbrey have been honored with place names, Wyeth by a staten on the railroad in the Columbia gorge and Awbrey by a Bend landmark, Awbrey Heights.

Possibly there are other names that should be considered by school

men of the future in naming a westside grade school, but there is one now fresh in mind that should be carefully filed for consideration.

It is the name of Nell Tifft Armstrong. She died in Bend this past week end, after long service to her commu-

Mrs. Armstrong, then Nell Tifft, joined the Bend school system in distant 1919, fresh out of school and newly from the mid-west. For years she was principal for the Reid Grade Schoolwhich, incidentally, was also named for an early-day teacher, Ruth Reid Overturf, now of Hood River.

Mrs. Armstrong married, then retired to raise her family. Later she served for a number of years as a director of the Bend school system, then stepped from the district board to reenter her chosen field, teaching. For some eight years she was a member of the staff of Kenwood Grade School, close to her home on Harmon Boule-

Naming a school after a community leader has precedents in Bend. In addition to Reid Grade School, another eastside school was named for a director and community leader.

That school is Allen, named for the late Herbert E. Allen, assistant manager of Brooks-Scanlon, Inc., at the time of his death.

glowered and heckled.

By Drew Pearson

WASHINGTON — Orville Free-nan stood in line at a reception the seed expert from Iowa whose father had been Secretary of Agcommemorating the 100th anni-commemorating the 100th anni-versary of the founding of the Agriculture Department. A 100th Brannan had been scoffed at as a birthday should be a happy occa- visionary who wanted a direct sion, but this one was not.

Twelve hours before, Freeman had fired his Assistant Secretary of Agriculture, the third member of his staff to get embroiled with a get-rich-quick Texan who had spensed cash and clothes to influence people.

Orville Freeman had come to Washington with a beautiful wife and high hopes of licking the toughest domestic problem con-fronting the nation — the farm

This did not mean that he was ntirely naive. It is true that he had watched every man who tackled the agriculture problem in re-cent years leave with his reputa-

Vance named Army secretary

NEW YORK (UPI)-Cyrus R. Vance, 45, an attorney and World War II naval officer, Sunday was named secretary of the Army by President Kennedy to succeed Elvis Stahr.

Vance, general counsel of the Department of Defense in Washington, will take over June 30 when Stahr's resignation becomes effective. His appointment to the glasses \$22,000-a-year job is subject to "So y Senate confirmation.

He served on destroyers in both the Atlantic and Pacific during the war after entering the Navy in 1942. He was discharged in 1946 with the rank of lieutenant. Vance was born in Clarksburg W. Va., and graduated from Yale Law School. He is married to the former Grace Soane and has five

children. The family lives in Wash-

Serving in various governmen counsel positions, Vance from 1957 to 1960 was special counsel to the Senate preparedness investigating subcommittee of the armed services committee. It was in this position that he first worked with the subcommittee's inquiry into the satellite and missile programs. Later he was counsel for hearings on the U.S. defense and

ice programs. Stahr resigned June 30 to be come president of Indiana University. He was president of West Virginia University when he accepted the Army secretary post.

There was speculation that he was quitting because of disagree nedy over Army reorganization

hogs and 14 sheep were sold. At the earlier sale, 66 hogs and 36 considered him a city slicker, June 15 and return about July 23. sheep went through the ring.

Only standard quality slaughter steers were offered, these going cows, 16.40-17.90; utility, 13.60-16.-10, and canner - cutters, 11.80-14.30. Utility - commercial bulls sold for 19.50.

Standard - good veal calves brought 28.25; heavy killer calves, 24.50. Baby calves sold by the head, beef and beef mixed, 15-57.50; Holsteins, 24-42.50, and oth-

er dairy types, 14-20. Good - choice feeder steers, 500-700 lbs., brought 21-50-26-50; common-medium, 400-700 lbs., 19.10-23.50; good-choice heifers, 500-700 lbs., 24.40; common - medium, 400-700 lbs., 18.10-21.75.

Good - choice steer calves, 200-500 lbs., brought 28.25-28.50; common - medium, 300-500 lbs., 22 to-23.75; good - choice heifer calves, 300-500 lbs., 23.75-24.80; common medium, 250-500 lbs., 21-25-80. No Medlum-good pairs brought 187.

U.S. No. 1 and 2 market hogs. 180-220 lbs., went for 17-40-19 20; U.S. No. 3, 16-70-17-10; sows, 12-90-16, and weaner pigs, 9.50-15 per head. Ewes and lambs went for 15-18 per pair,
