Remarriage could hurt Rocky hopes

WASHINGTON (UPI) - Gov. Nelson A. Rockefeller's possible remarriage is setting off a great-er spate of speculation among Republicans than anything since Wendell L. Willkie came from nowhere to win the 1940 presidential nomination.

The speculation grows with each "no comment" the New York governor gives to questions as to whether he may marry Margaretta Murphy, who was di-vorced in Idaho last month. Rockefelier was divorced last year after 31 years of marriage.

Fear Damage To Chances There is a widespread belief within the GOP that remarriage would damage his chances of winning the presidential nomination and the White House - but no one is sure how much.

Those who regard themselves as Republican king-makers are sure to be taking a searching look at other possible choices. The alternatives include Gov. George Romney of Michigan, Sen. Barry Goldwater of Arizona, Gov. William W. Scranton of Pennsylvania and possibly for-mer Vice President Richard M.

Nixon, the defeated 1960 nominee. Fred A. Young, newly elected New York state GOP chairman, said Tuesday he did not believe remarriage would damage Rockes political future.

"If it's a solid marriage, what's wrong with it?" he asked.

"Political Suicide" But Carl L. Shipley, District of Columbia GOP chairman, said he agreed with voters who had told him it would be "political sui-cide" for Rockefeller to remarry.

"Nobody thinks it's good everybody thinks it's bad," "and I have to agree

Other Republicans also are jueasy. One GOP leader, respected here for his political judgnent, feels that a Rockefeller remarriage would mean losing the votes of many women of middle age and older and would revive the religious issue which marred the 1960 campaign.

The GOP has expected Republican Catholics who voted for President Kennedy would return to the fold in 1964 and most of the Democrats who opposed the President because of his religion to drift back to their party.

Billy Graham for president?

DALLAS, Tex. (UPI)- Billionaire H.L. Hunt said Wednesday night he would "not now commit myself as favoring anyone for president in 1964."

NEW CANCER DETECTION

WASHINGTON (UPI) - The Army plans this summer to begin testing a new method of mouth cancer detection on recruits.

The new method is called exfoliative cytology. It involves tak-ing small samples of surface cells from questionable areas in the mouth. Samples will be sent to the up in the April, 1963, issue of a Army Institute of Dental Research publication called "The Cross and here for examination by oral canthe Flag" of Gerald L. K. License plate plan approved

SALEM (UPI) - The Senate voted 20-10 today for new reflec-torized auto license plates with the word "Oregon" in letters at least as large as the license plate

Approval came after the upper House voted 22-8 to reject a move to get the measure back in com-mittee. Some wanted to add advertising slogans to the plates; others wanted the design changed so it would be uniform with other

The proposed new plate drops the "Pacific Wonderland" slogan. If approved by the House and signed by the governor, the bill would require the first of the new plates to be issued in January 1964. One-fifth of the state's license plates would be changed every year until the transition had been completed.
