

# Grande Ronde Hospital

We understand hospitals and doctor's offices can sometimes seem scary.  
We understand you'd rather do anything than have surgery or get an MRI.  
That's why we work hard to make your time with us safe and comfortable.

Everything we do has your best interests at heart:

- ~ How can we make your time with us the best it can be?
- ~ How can we help you stay close to family and friends during care?
- ~ How can we give you the best care possible that is also affordable?

These are just some of the things we focus on every day, so you don't have to.  
We just want you to think about getting better ... and going home.

Exceptional care at home
