Moonshine Glass' Stirling Webb will be hiding 100 glass "Easter eggs" in publicly accessible places spread "all over Wallowa County" for a community Easter egg hunt that will begin at 9 a.m. on Easter Sunday, April 4, 2021. Starting then, Webb will release the general locations and a map of where the eggs are hidden on his Moonshine Glass Facebook page and website. A map of the locations can also be obtained at Moonshine Glass at 624 S. River St. in Enterprise, also beginning at 9 a.m. April 4. "They won't be that easy to find," Webb said. "I want people to look for a couple of hours and have some fun." In case the egg hunters don't find their quarry, Webb will also have glass eggs for sale at his shop Friday through Sunday.

A sweat bee (Halictus, a solitary bee that lives in small burrows) searches for pollen on a small Lomatium (cous, or biscuitroot) along the Wallowa River near Minam on Sunday, March 28, 2021. These small Lomatiums are among the earliest-blooming flowers in the spring. Larger species are known as desert parsley and usually bloom later in the spring.
