Isn’t It The Truth

A Word on Advertising—For example take the Waid Ad above. We have briefly stated plain facts and quoted a price. It really tells nothing—unless it is realized that "MEYERS’ QUALITY" is a standard, absolutely dependable. You may read in this same issue an Ad written exactly as above and quoting a price of $1.00—but THERE WOULD BE A DIFFERENCE, not merely in price, but in the quality of material and grade of workmanship.

What we ask is fair—Compare merchandise and we are satisfied.

“SMASHING BARRIERS”—STARTS SUNDAY

Dr. Frank Bohn, noted writer, publisher and lecturer will appear here in the Lyceum Tuesday with one of the most charming and interesting entertainers of the year. Dr. Bohn has but recently returned from Europe and by his own account has been one of the most interesting and picturesque men to come to this country in recent years.

The program will be in Dr. Bohn’s own words and will be shaped to the requirements of the various audiences that Dr. Bohn desires to enlighten, entertain and instruct.

A number of women who have already been entertained by Dr. Bohn on this and other trips will tell of the enjoyments of this remarkable man.

Dr. Bohn is known as the "Man of the Crowd," and it will please everyone with whom this evening will not prove to be a fascinating and entertaining evening.

Dr. Bohn is represented on the stage, screen and page by the admirable plays of his own and other writers and by the entertainment of his own creation.

DOESN’T IT PULL YOU" (The above account is inserted free).
