

DAY OF FROCKED PARSON IS OVER, SAYS PARSON

Declaring that the day of the "nice, nice, kid-gloved, frock-coated parson" is over and that the church of today must "get down to business and do business in a business way," Rev. H. V. Stivers, "fire-eating parson" from Eugene, addressed the business men at their regular noon-day luncheon in the Commercial club Monday.

Dr. Stivers is the first man in the United States, or so far as known, in the world—to advertise his church. Not long ago he attracted the attention of churchgoers in all parts of the United States by running full-page ads in Eugene papers.

Rev. Stivers talked on "Christianity in Business and Business in Christianity," and declared that business and Christianity are daily growing in closer relation.

He asserted that "it is a new day for the church and the preacher," and now they have opportunity never offered before to inject business principles in the work of conducting the pastorate.

Dr. Stivers told of how his church in Eugene "had been almost on the rocks." When he proposed the advertising of it, the old-timers "held up their hands in awe and surprise."

"But we raised \$25,000 there just as easy as we could have raised \$5000 the other way," Dr. Stivers declared, "because we changed our tactics from the nifty, paddy, wispy, waxy basis to the real sound foundation of business principles."

He attacked the minister who approaches the business man on the street with "Well, brother, what are you doing for your soul this morning?"

"I'd rather pass 'em up than say that," he declared. "The only way to get anywhere with a business man is to talk business with him. Then you've got a chance to get in your work properly and effectively."

U.S. CITIZENS ASKED TO STAND BEHIND LABOR

Muscogee, Ia., Oct. 23.—A plea to American citizens to stand with labor in the present industrial crisis, was made today by Fred A. Canfield, president of the Iowa Federation of Labor, in an address before the Social Welfare association, in convention here. The alternative, he said, would invite anarchy and chaos in this country.

Canfield admitted the leaders of the industrial labor—"the ones upon whom depends the future of industrial peace"—are in a "critical situation today" and should have the public's support.

The forces of extreme radicalism are threatening to gain control of the country, Canfield asserted and added "if they are once in the saddle, God help the United States of America."

Kind Motorist Stops To Help Car In Distress; Is Robbed

Spokane, Wash., Oct. 28.—J. B. Langworth, of the International Harvester company, stopped his car on the Sunset highway near here Sunday night when he was signalled by a flash light.

"Car in distress," thought he. Two revolvers, held by masked bandits, unconvinced him.

The loot was \$150.

The robbers operated in a stolen Pierce-Arrow.

FRENCH VESSEL AT MOUTH OF DIVINA TO AID BRITISH FORCE

London, Oct. 28.—French destroyers at the mouth of the Divina have been ordered by Paris to assist British warships in attacking the forces of Colonel Bermont, a Riga dispatch reports.

(Bermont, successor to General Von Der Goltz as leader of the Russo-German force on the west front, has been bombarding Riga as part of his campaign against the Letts, who, he alleges, are opposing his march against the bolsheviks.)

A Stockholm dispatch said that Premier Cinnamus and all extreme socialists of the Lettish government have resigned.

According to Helsinki advices, Finland has definitely refused General Yudenitch's request for assistance in his offensive against Petrograd.

BANK ROBBERS SENTENCED

Salt Lake City, Utah, Oct. 28.—Frank Smith and Thomas Frank DeVine, alias Bill Underwood and James Smith, convicted bank robbers who looted the cashier of the Mendenhall bank of Stringville, Utah, in a vault and escaped with \$50,000, were sentenced Monday to five years to life. The two were captured after a long search, in La Grande, Or.

Darken Gray Hair, Look Young, Pretty

Grandma's recipe of Sage Tea and Sulphur darkens so naturally that nobody can tell

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. FARMERS AND LABOR MAY FIGHT HIGH COSTS

Cleveland, Ohio, Oct. 28.—An effort will be made to link the international labor unions and the agricultural organizations of the country into a gigantic bureau to beat down the cost of food stuffs at the forthcoming national farm and labor conference in Washington, according to Warren S. Stone, grand chief of the Brotherhood of Locomotive Engineers.

Stone said here today he would spend the next two months perfecting the cooperative scheme. He plans to eliminate the middleman and institute machinery for direct interchange between the farmer and the consumer.

The proposed organization, he said, would include the American Federation of Labor and the National Grange.

Making a purely vegetable Medicine 1875—1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests.—then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

First—The various herbs used are of the finest quality, and gathered at the time their medicinal strength is the highest.

Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.
